LEDOX365

Save time - increase speed

A wizard-driven NDA generator enables the business user and disburdens legal – even beyond NDAs.

Reduce risks - get insights

Standard contract templates and rules of application – managed by legal – reduce complexity and risk and increase transparency of contract details.

Stay informed - be prepared

System-driven notifications and a comprehensive dashboard enable timely, and data driven decision making.

Work together - real time

With colleagues and even with third-parties, based on standard features of Microsoft 365.

High acceptance - less change

Provided on a technology and user interface that everyone is familiar with, reduce change management efforts and increase user acceptance.
