

Velocity Learning Management System & Virtual Classroom with Microsoft integrated product solutions on Azure for State and Local Government.

— About J

Jones Software Corporation (j-softech.com) provides Cloud-Based Learning Management Systems (LMS), Virtual Classrooms, and Video Conferencing Solutions for K-12, Higher Education, and Corporate Training. Our mission is to close the learning gap with a highly suitable platform for educators and learners. Our flagship product, JSC V.C. R™ virtual classroom, allows remote learning options with content management and real-time data analytics. Whether you're a school, university, corporation, or remote worker, JSC has the expertise and solutions to help you succeed. Contact us today to learn more.

— What we offer

State and local governments require efficient and effective training programs to ensure that their employees are well-equipped to meet the needs of their citizens.

Our Velocity LMS provides a comprehensive e-learning platform for managing and delivering training content to government and municipal employees, with integration with Microsoft product solutions such as Azure, Microsoft Teams, and SharePoint.

Velocity Learning offers a customizable platform with a wide range of features, including content management, course creation, and user tracking. Our solution also includes advanced reporting and analytics capabilities to monitor learner progress and evaluate the effectiveness of training programs.

What our customers are saying

"We use Velocity LMS with Microsoft integration for government training programs. The platform is customizable and user-friendly, allowing for easy course creation, progress tracking, and report generation. Integration with Microsoft Teams and SharePoint enhances collaboration among learners and trainers, providing real-time access to resources. Velocity LMS improves employee performance and service delivery."

Why Microsoft Azure?

— Be future-ready

Continuous innovation from Microsoft supports your development today, and your product visions for tomorrow. With 1,000+ new capabilities in the past year, you can build on the latest advancements in AI, blockchain, Kubernetes, containers, and databases to keep you ahead of the curve.

Our enterprise grade analytics solution outperforms the competition, costs less, and is fully compatible with your existing development, BI, and data-science tools

— Operate hybrid seamlessly

On-premises, in the cloud, and at the edge—we'll meet you where you are. Integrate and manage your environments with tools and services designed for hybrid cloud.

Enhance security, simplify access, and set smart policies across your different environments with a single-identity platform trusted by 90% of enterprises globally.

— Build on your terms

You have choices. With a commitment to open source and support for all languages and frameworks, build and deploy how you want to. Take advantage of the full-featured, integrated development environments with built-in support Visual Studio and Visual Studio Code, the most popular IDEs trusted by 15M+ developers.

We embrace open source, drive innovation through collaboration, and contribute back to the community.

— Trust your cloud

Get security from the ground up, backed by a team of experts, and proactive compliance trusted by enterprises, governments, and startups.

With a \$1B+ investment in security R&D and 3,500 cybersecurity experts, security is foundational for Azure.

Microsoft Azure is an ever-expanding set of cloud computing services to help your organization meet its business challenges. With Azure, your business or organization has the freedom to build, manage, and deploy applications on a massive, global network using your preferred tools and frameworks.
