

# Strategic AI & Low Code Roadmap

2-Week Workshop

## Business Outcomes

JourneyTeam's experts will collaborate with your team in workshops to build a strategic vision and detailed value plan with a clear, actionable strategy for transforming business operations with low-code solutions and AI.

- **Adapt Faster:** Leverage flexible, scalable low-code solutions to quickly address and transform key business challenges.
- **Perform Better:** Optimize processes with actionable insights and guided workflows, driving continuous improvement and better decision-making.
- **Work Smarter:** Utilize AI and low-code tools to enhance collaboration, productivity, and operational efficiency.

»»» Our 2-week Low-code Vision & Value workshop provides a strategic roadmap tailored to address your key business challenges and overcome inefficiencies using low-code & Microsoft's next-gen AI.

JourneyTeam is helping customers leverage Microsoft's Power Platform & AI solutions to transform their business operations, enabling them to **adapt faster** with flexible solutions, **work smarter with AI**, and **optimize processes**. This workshop will not only showcase the art of the possible of the Power Platform, but also build a strategic vision and detailed value plan for business transformation using low-code solutions and AI.

## Engagement Deliverables

JourneyTeam will provide the insights, analysis, and recommendations needed to leverage low-code effectively - including next-gen AI capabilities and governance.

- **Business Assessment:** Evaluation of your organization's readiness for AI and low-code solutions.
- **Prioritized Scenarios:** Business initiatives and a business value plan for three scenarios, including target results and actionable next steps.
- **Governance and Security:** Guidance to ensure secure & maintainable adoption of AI and low-code solutions.
- **Actionable Roadmap:** Business Value Plan for next steps, with recommendations, clear timelines and sponsors.
