

LENDERKIT

CUSTOMISABLE SOFTWARE
FOR INVESTMENT MANAGEMENT &
CROWDFUNDING

ABOUT LENDERKIT

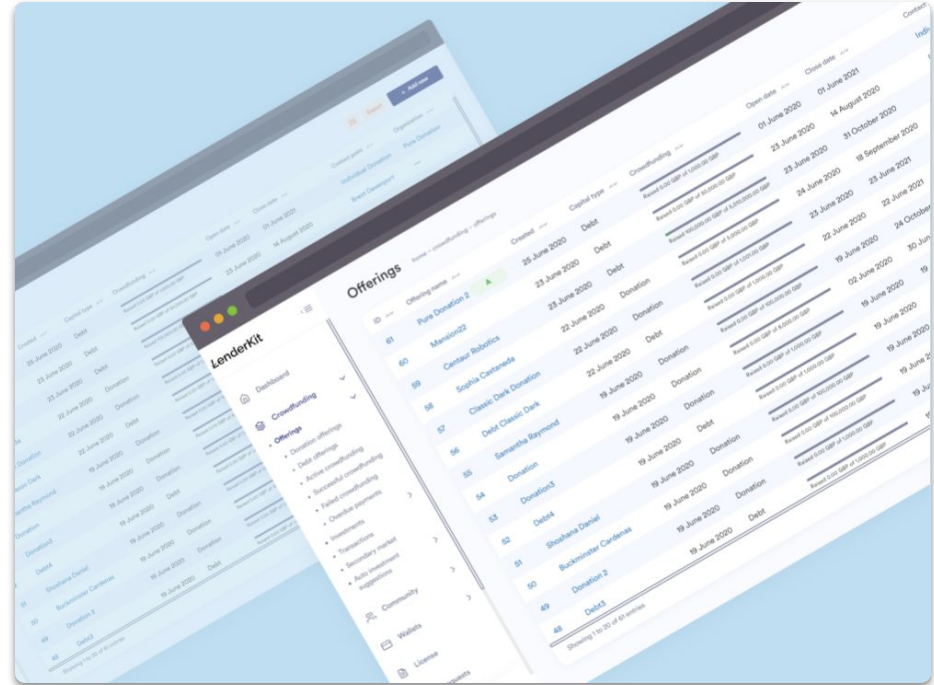

LenderKit is an **investment management** and **business automation software** for startup investment firms, real estate developers, VC and private equity firms.

Being a child company of JustCoded, LenderKit provides white-label and custom investment management and crowdfunding solutions for different industries and needs.

DESIGNED FOR YOUR BUSINESS

LenderKit is customisable, flexible, and secure. It covers multiple business needs:

- Pitching to the board of directors to raise funds for the MVP
- Validating the market and testing your idea
- Setting up and adjusting the software to register your crowdfunding platform
- Launching a full-scale investment platform

LENDERKIT IS GREAT FOR

Real Estate Crowdfunding

A real-estate ready solution with automated flows, offerings and money management.

Peer-to-peer Lending

Build investment platforms for healthcare, agriculture, technology and other industries.

Investment Marketplaces

Helps innovative businesses and underfunded startups to get alternative financing.

Private Equity Investing

Allow fund managers, accountants, lawyers, investors and fundraisers to collaborate.

REGULATIONS FRIENDLY*

EUROPE	USA	SAUDI ARABIA	UAE
FCA Other	SEC, FINRA Reg D, Reg, CF, Reg A	CMA, SAMA Shariah	DFSA, DIFC SCA, FSRA

*LenderKit hasn't been reviewed by any of the mentioned regulators. However, we have a proven record of businesses launched on LenderKit that are operating in the UK, USA, and Saudi Arabia. We **customise LenderKit to fit** your particular regulatory framework.

SOLUTIONS WE PROVIDE

Marketing Site

We've designed **4 pre-built theme layouts** that you can use to promote your business. We can also build a custom website with preferred designs.

Web Portal

The **investor and fundraiser dashboards** that users land on after the registration. The web portal is connected to the Admin Panel and Marketing Site.

Admin Panel

The **admin area** where you can manage users, money flows, offering campaigns and more. You can have multiple roles for lawyers, accountants, advisors, etc.

How LenderKit Works

EQUITY CROWDFUNDING SOFTWARE

Allow individual and institutional investors to invest in equity be it real estate, startups, agriculture, technology, or green energy.

LenderKit can be tailored to your particular industry, share types, reinvesting preferences, entitlement to dividends, payout schedules, deal sizes, user roles, etc. Request to create an advisor role and set up a secondary market, configure a reasonable fee structure to effectively monetise your platform.

PEER TO PEER LENDING SOFTWARE

Build a P2P lending platform for SME or real estate financing. Partner with third-party providers and allow your investors to leverage tax-advantaged accounts.

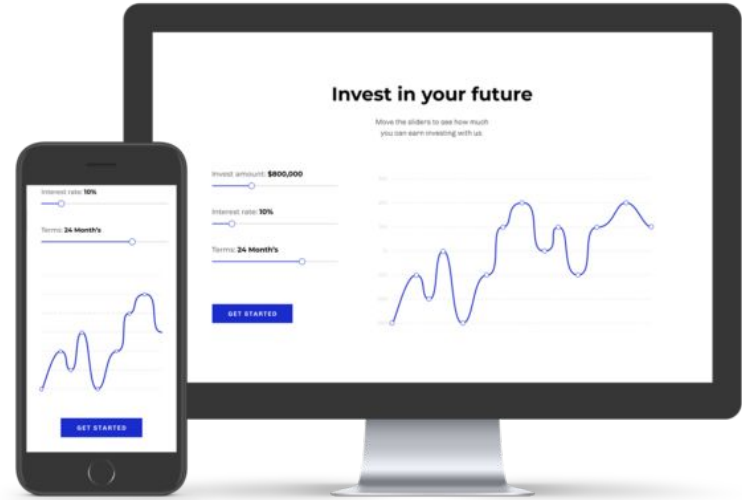

LenderKit is initially designed with debt investing flows and offers great partnership and integration opportunities in the UK. But we can also adjust the platform to your country's regulations and integrate the required third-party instruments or build custom features.

REAL ESTATE CROWDFUNDING PLATFORM

Designed specifically for real estate, LenderKit has comprehensive out-of-the-box functionality to help you get started with real estate crowdfunding.

Build a REIT platform or allow for direct investing in property for sophisticated or institutional investors. LenderKit can be tailored to provide efficient portfolio and offering management, auto-investing, repayment structuring, report generation, document signing, etc.

LenderKit

Models

WHITE-LABEL

Using a white-label solution, you can use LenderKit as a **proof of concept*** to test the waters. Alternatively, you can operate a **fully-functional crowdfunding platform** using a complete setup or some parts of the software that include:

- Marketing site
- Investor and fundraiser portal
- Admin back office

The white-label option is best suited for startups and growing businesses with limited funding.

** Non-live environment, for demo purposes only. For live operations, you have to register the platform with your local authorities in your country of operations.*

CUSTOM

Every part of the LenderKit software can be customised to your functionality and design preferences, business needs and regulations.

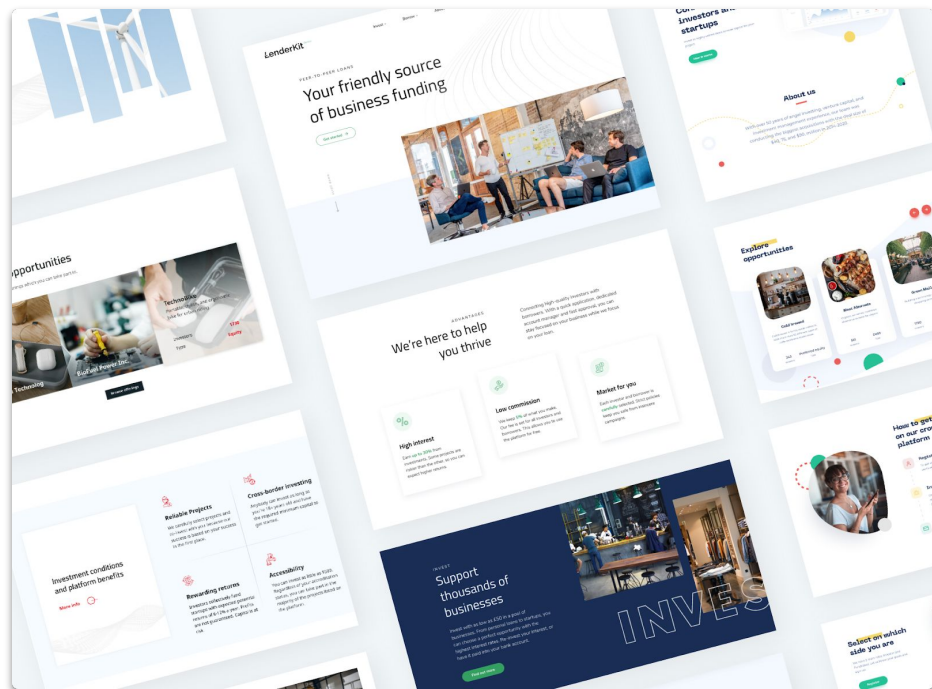

Here is how the custom development model works:

We may have occasional special offers, so always make sure to contact our manager for more information about custom development.

LenderKit

Software package

MARKETING SITE

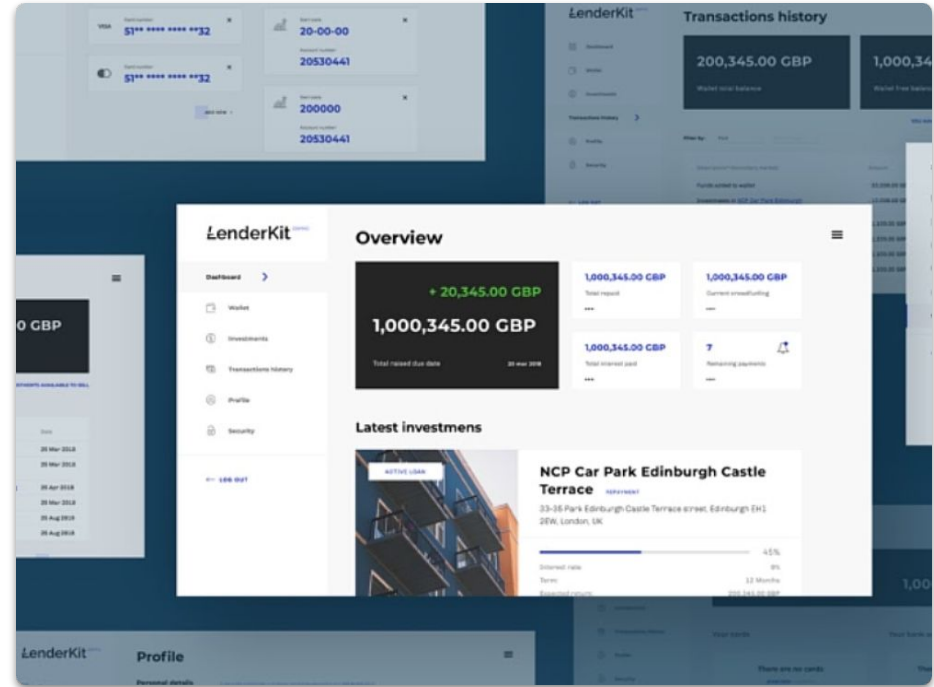

A set of **4 ready-made themes** for a crowdfunding website allows you to **save time on design and launch the platform faster**. Pick one theme, put your logo on it and you're ready to go. Effectively promote your business, onboard early-stage investors and fundraisers.

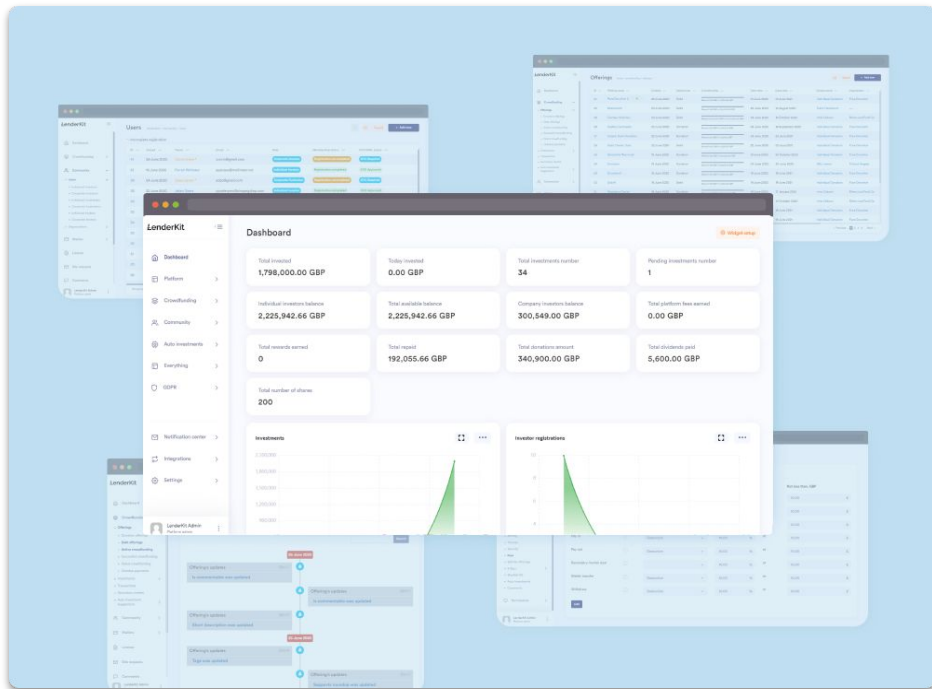

The themes work great across all popular devices and provide an excellent experience, be it a laptop or mobile phone. LenderKit themes are great for launching a white-label crowdfunding platform for real estate or SME investing in a highly-compressed timeline.

DASHBOARDS FOR USERS

Friendly personal dashboards allow investors and fundraisers to stay up-to-date with their activities on the platform:

- Monitor investment portfolio
- Track crowdfunding performance
- Browse transactions
- View investment history
- See wallet balance changelog
- Manage payouts

ADMIN PANEL

Get a **full picture of everything** that happens on your crowdfunding platform:

- View the number of new registrations and visitors
- Manage investor/borrower statuses and portfolios
- Manage organizations
- Calculate and setup fees
- Access offerings and overdue payments
- View documents and control payment transactions

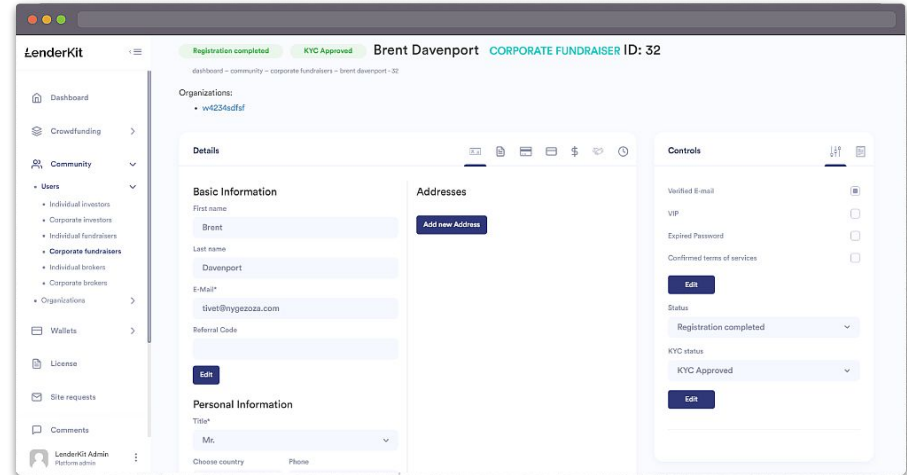

LenderKit

Features

USER MANAGEMENT

The platform admin can **manage all information** about users:

- Update KYC and registration status
- Manage personal documents and billing info
- Get a history of all user status changes and activity updates
- View investments and planned payouts for investors
- View offerings and crowdfunded money for fundraisers
- Create investments on behalf of an investor
- View or create secondary market selling or buying applications

The screenshot shows the LenderKit back-office interface. The left sidebar contains navigation options: Dashboard, Crowdfunding, Offerings, Donation offerings, Debt offerings, Active crowdfunding, Successful crowdfunding, Failed crowdfunding, Crowdfunding payments, Investments, Transactions, Secondary market, Auto investment suggestions, Community, Wallets, License, Site requests, and Comments. The main content area displays a table of offerings with columns for ID, Offering name, Created, Capital type, Crowdfunding, Open date, Close date, Contact point, and Organisation. The table lists 14 offerings, including Pure Donation 2, Manisic2, Centaur Robotics, Septha Castaneda, Classic Dark Donation, Debt Classic Dark, Samantha Raymond, Donation, Donation3, Debt4, Shoshana Daniel, Buckminster Cardenas, Donation 2, and Debt3.

ID	Offering name	Created	Capital type	Crowdfunding	Open date	Close date	Contact point	Organisation
61	Pure Donation 2	25 June 2020	Debt	Raised 0.00 GBP of 1,000.00 GBP	01 June 2020	01 June 2021	Individual Donation	Pure Donation
60	Manisic2	23 June 2020	Debt	Raised 0.00 GBP of 20,000.00 GBP	23 June 2020	14 August 2020	Brent Davenport	---
59	Centaur Robotics	23 June 2020	Debt	Raised 100.00 GBP of 4,000,000.00 GBP	23 June 2020	31 October 2020	Ima Osborn	Rivers and Ford Co
58	Septha Castaneda	22 June 2020	Donation	Raised 0.00 GBP of 4,000.00 GBP	24 June 2020	18 September 2020	Individual Donation	Pure Donation
57	Classic Dark Donation	22 June 2020	Donation	Raised 0.00 GBP of 1,000.00 GBP	23 June 2020	23 June 2021	Individual Donation	Pure Donation
56	Debt Classic Dark	22 June 2020	Debt	Raised 0.00 GBP of 1,000.00 GBP	22 June 2020	22 June 2021	Individual Donation	Pure Donation
55	Samantha Raymond	19 June 2020	Donation	Raised 0.00 GBP of 100,000.00 GBP	19 June 2020	24 October 2020	Individual Donation	Pure Donation
54	Donation	19 June 2020	Donation	Raised 0.00 GBP of 4,000.00 GBP	02 June 2020	30 June 2020	Billy Larson	Fintech Angels
53	Donation3	19 June 2020	Donation	Raised 0.00 GBP of 1,000.00 GBP	19 June 2020	19 June 2021	Individual Donation	Pure Donation
52	Debt4	19 June 2020	Debt	Raised 0.00 GBP of 1,000.00 GBP	19 June 2020	19 June 2021	Individual Donation	Pure Donation
51	Shoshana Daniel	19 June 2020	Donation	Raised 0.00 GBP of 100,000.00 GBP	19 June 2020	17 January 2021	Ima Osborn	Rivers and Ford Co
50	Buckminster Cardenas	19 June 2020	Donation	Raised 0.00 GBP of 100,000.00 GBP	19 June 2020	10 October 2020	Ima Osborn	Rivers and Ford Co
49	Donation 2	19 June 2020	Donation	Raised 0.00 GBP of 1,000.00 GBP	19 June 2020	19 June 2021	Individual Donation	Pure Donation
48	Debt3	19 June 2020	Debt	Raised 0.00 GBP of 1,000.00 GBP	19 June 2020	19 June 2021	Individual Donation	Pure Donation

OFFERING SETTINGS

In the back-office, you can **manage crowdfunding settings and offerings**:

By default, every offering has the following editable details:

- Offering owner and offering name
- Loan type – debt or equity
- Offering opening date and funding goal
- Minimum and maximum commitment per investor
- Maximum overfunding amount
- Interest rate

FEE MANAGEMENT

This is the heart of the crowdfunding business because it defines how and how much you are going to earn.

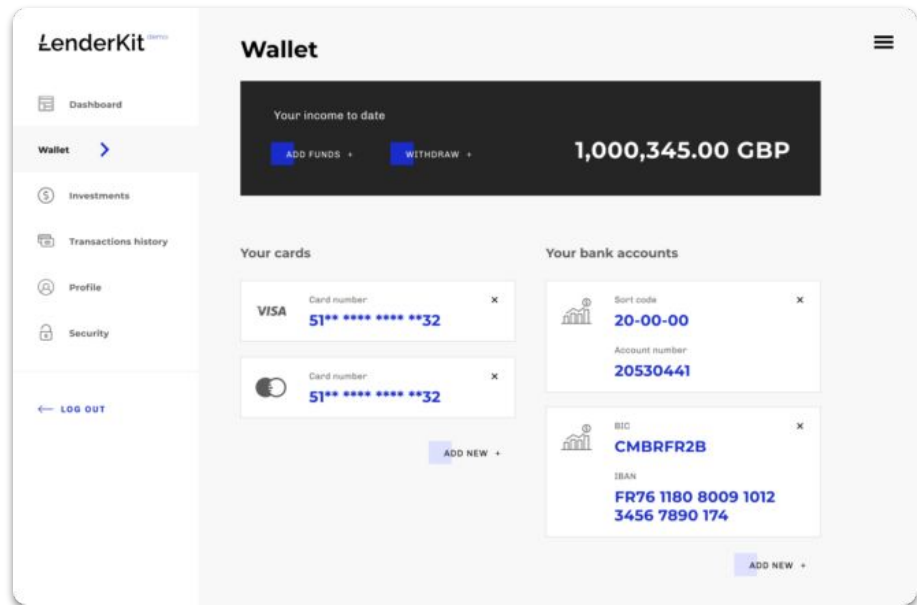

We've made the configuration **as flexible as possible** by allowing you to set up a variety of parameters:

- Select a transaction type
- Choose whether the fee is deducted at once or added to the final amount
- Determine a percentage and the flat fee

The screenshot displays the LenderKit Settings interface, specifically the 'Fee Settings' section. The page has a dark sidebar on the left with navigation options: License, Site requests, Comments, Settings (expanded), Activity actions, API log, Themes, Security, Fees (selected), SEO for offerings, E-Sign, Blacklist IPs, Auto Investments, and Comments. The main content area is titled 'Settings' and contains a table for configuring fees for various transaction types.

Transaction type	Enabled	Type	%	or	Not less than, GBP
Crowdfunded	<input type="checkbox"/>	Deduction	10.00 %		10.00 £
Internal wallet transfer	<input type="checkbox"/>		10.00 %		10.00 £
Investment	<input type="checkbox"/>	Deduction	10.00 %		10.00 £
Pay in	<input type="checkbox"/>	Deduction	10.00 %		10.00 £
Pay out	<input type="checkbox"/>	Deduction	10.00 %		10.00 £
Secondary market deal	<input type="checkbox"/>		10.00 %		10.00 £
Wallet transfer	<input type="checkbox"/>	Deduction	10.00 %		10.00 £
Withdraw	<input type="checkbox"/>	Deduction	10.00 %		10.00 £

An 'Edit' button is located at the bottom of the table.

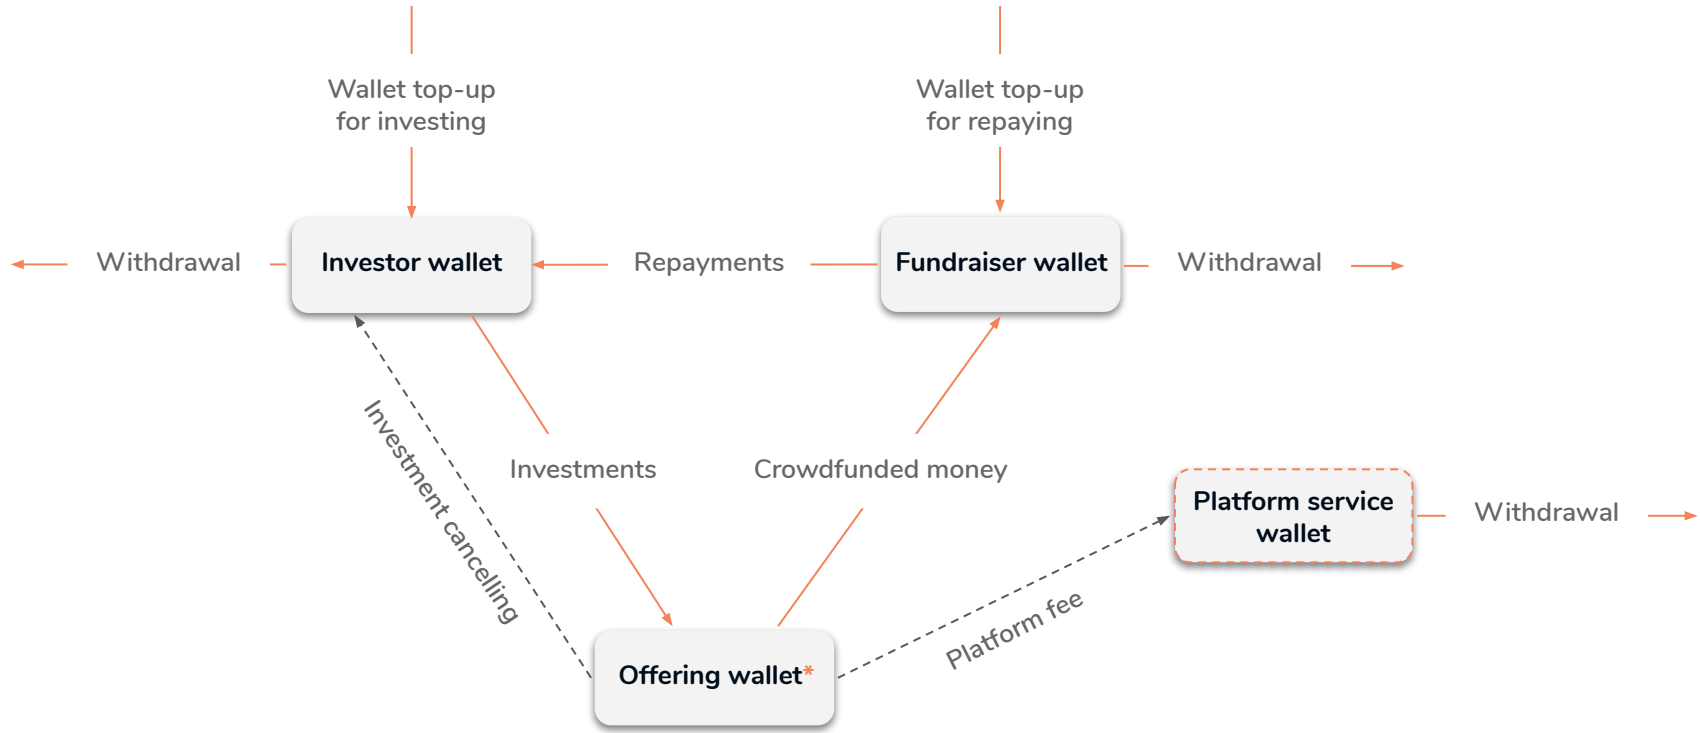

E-WALLET SETTINGS

All users on LenderKit can **access and manage** their money directly:

- Top-up e-wallets
- Perform internal transfers between e-wallets
- Request withdrawal of funds from e-wallet to a bank account or a credit card
- Add new funding methods

There's no need to involve the platform admin in the process of internal transfers between the wallets because everything happens automatically.

SIMPLIFIED MONEY FLOW SCHEME

* To process money online, you need to integrate with an authorised payment processor that has an escrow account. For example, PrimeTrust, MangoPay, or other.

SECONDARY MARKET

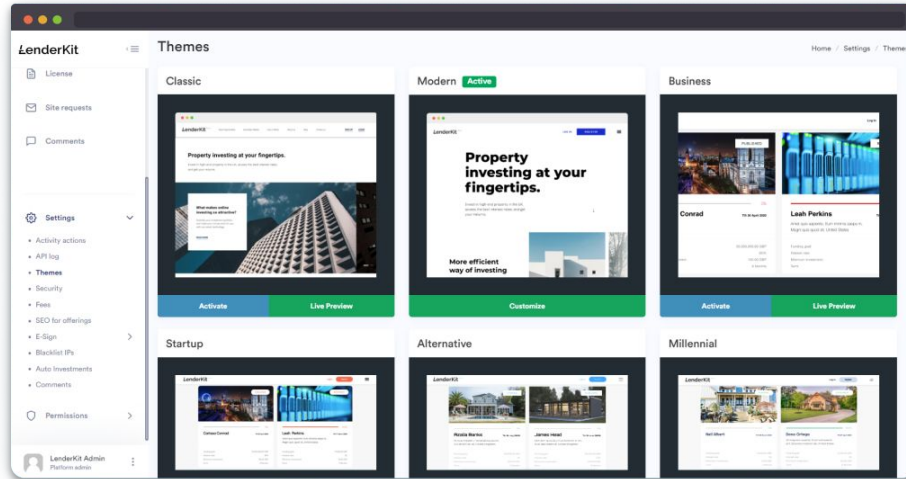

Secondary market **allows investors to sell their securities** to other investors.

Here's what the secondary market on LenderKit has the potential to offer to investors (requires customisations):

- Sell an investment fully or partially
- Set the price for investments based on the recommended amount or the price calculated by the system

The screenshot displays the LenderKit Secondary Market interface. At the top, there are navigation links: "Open Opportunities", "Secondary Market", "How It Works", "About Us", "Blog", and "Contact us", along with a "REGISTER" button. The main heading is "Secondary market" with a sub-heading "2 Opportunities". Below this, there is a card for "NCP Car Park Edinburgh Castle Terrace". The card includes a photo of the building, the address "33-35 Park Edinburgh Castle Terrace street, Edinburgh EH1 2EW, London, UK", and key details: Funding goal: 1,000,000.00 GBP, Interest rate: 11%, Closing in: 300 Days, and Close date: 20 Oct 2019. Below the card, there are two columns of financial data for each investment, with a "BUY" button for each. The first investment has an original investment of 1,000,000.00 GBP, forecast interest of 82.00 GBP, estimated end date of 08 February 2020, and paid to date of 0.00 GBP. The second investment has an original investment of 1,000,000.00 GBP, forecast interest of 95.00 GBP, estimated end date of 08 February 2020, and paid to date of 0.00 GBP. The current prices are 1,007,779.00 GBP and 1,003,440.00 GBP respectively. At the bottom, it says "2 of 5 are shown" and "SHOW MORE".

THEME SETTINGS

For an **exclusive look and feel**, our team of UX and UI designers will help you create a custom design; however, if you're on a budget, the configurator can be enough for starters. We've created a simple theme configurator which you can use to:

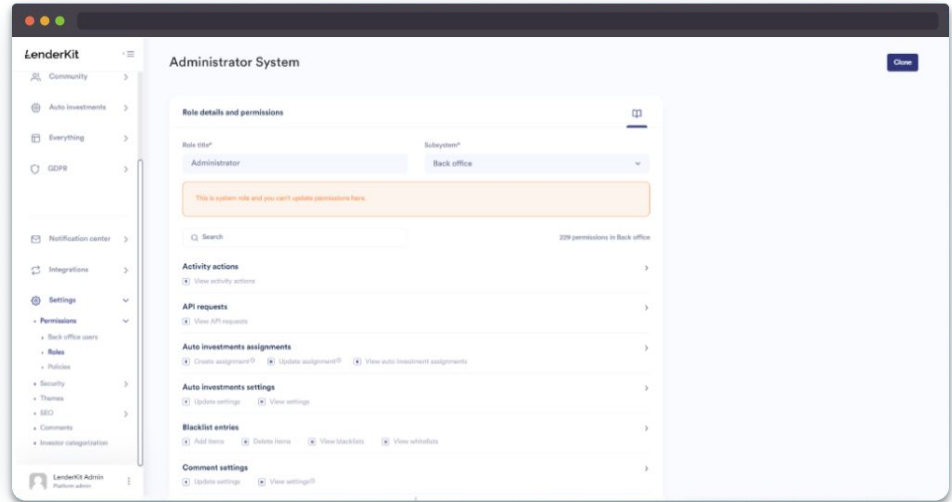

- Upload your logo
- Configure a unique colour scheme
- Adjust SEO settings such as headlines and meta description
- Create basic text content and upload files and images
- Preview results in real-time

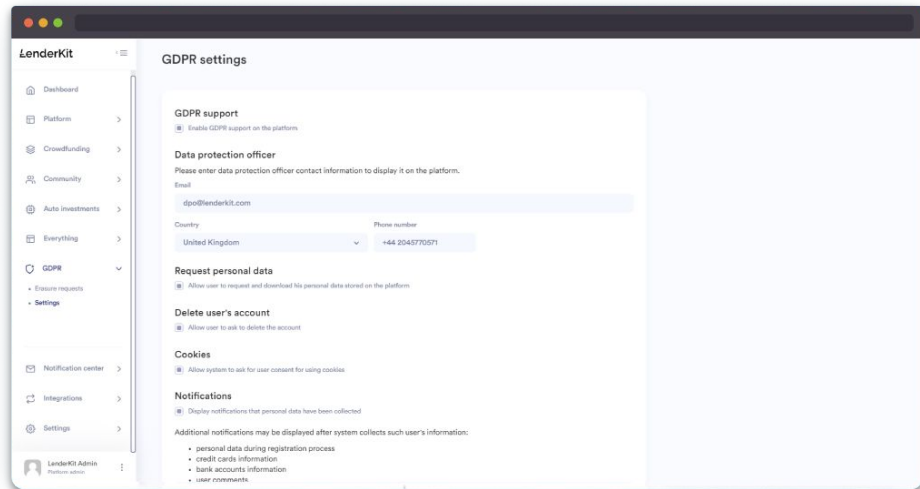

PERMISSION SETTINGS

The permissions module allows you as an admin to assign permissions to:

- Investment advisors
- Investment managers
- Accountants
- Data protection managers
- Other personnel

You can **create multiple user roles** with different access rights to structure your corporate departments effectively.

GDPR MODULE

GDPR module **facilitates your data protection compliance** requirements. With this module, users are able to:

- Request their data that your store
- Request to delete their data

As an admin of the platform, you can also:

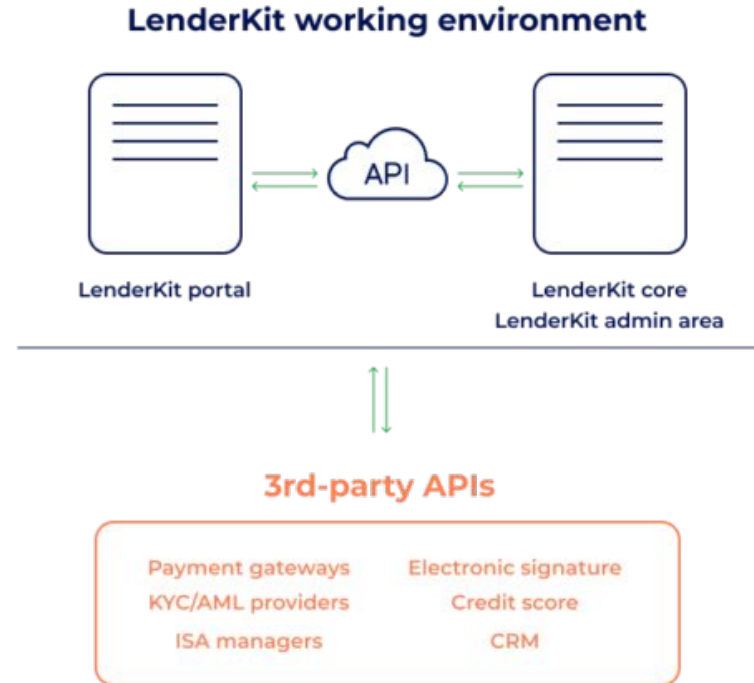

- Manage cookie settings
- Manage notifications, etc

API INTEGRATION

We **partner with payment** processing providers, KYC/AML verification, e-signature, and CMS service providers including:

- MangoPay
- LemonWay
- Goji
- Vixverify
- GC Partners;
- HelloSign;
- Contentful CMS

However, you can implement any third-party APIs or microservices in the LenderKit ecosystem. For example, accounting software APIs, document drafting, asset tokenization, etc.
