

Innovation Workshop

Elevate customer and employee experience by innovating with generative AI. We work to define pain points and use cases that generative AI can address and provide recommendations for your team.

Kainos offer a free of charge half-day workshop including preparation and analysis to build an understanding of your challenges, current state and any required outcomes. This workshop can act as precursor to an Azure OpenAI proof of value in the selected area of your business.

Innovate with Azure OpenAI

Innovation Workshop

Objective: Perform a rapid, high-level analysis of your business function/s to agree priority areas for Azure OpenAI proof of value

Approach: Interactive half-day event with SMEs to explore and agree best future Azure Open AI opportunities
