KAISPE

PROOF OF DELIVERY APP

Mobile app that connects customers, delivery team & suppliers to streamline the proof of delivery process. The app provides a paperless platform to capture signatures and take photos to populate your digital delivery note and confirm that the delivery was successful. Create and maintain your daily delivery schedule that truck drivers can pull in or can be pushed to their mobile devices to execute the delivery.

💡 KEY FEATURES

- User-friendly interface, drivers don't need to be trained.
- Quickly and easily track the status of every delivery.
- Enable bidirectional data sharing.
- Multi language support.
- Offline support.
- Scan a QR code to view the records for any order's delivery note or invoice.
- Get order details or jobs simply online without any paperwork.
- Data and PODs should never be lost.
- The app works offline & sync all data when connection is restored.
- Get real-time e-PODs signature along with a customer note when the orders delivered.
- Route optimization.
- Capture image for order on delivery.
- Delivery tracking.
