- Start small and rapidly move into production

## Borderless

- The only true cross-cloud, hybrid solution available
- Resiliency, performance, security and enterprise scale

## Shared IT

- Grow your network with easy member onboarding
- Govern the network with total distributed control

## Marketplace

- A full stack of leading blockchain-first technologies
- 3<sup>rd</sup> party industry accelerators offered plug and play

## Leading Innovations

- Native Token Economy services and tools
- Optionally pin state to Public Ethereum with Tether Service

*"Running on Kaleido, we started in July and successfully went into production with 15 global stakeholders in December"*

SOULEÏMA BADDI, Chief Executive Officer of komgo

*"With Kaleido, we successfully accelerated Project i2i into active pilot without the cost or complexity of starting from scratch."*

JUSTO ABOITIZ ORTIZ, Chairman of the Board, CEO for UnionBank of the Philippines
