Microsoft Cyber Security Controls Assessment

Create a secure workplace
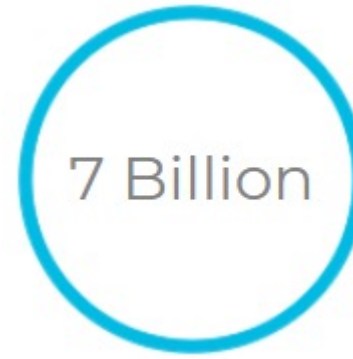

ALTRON
KARABINA

THE CURRENT LANDSCAPE

ALTRON
KARABINA

300%

increase in identity
attacks
in the last year

81%
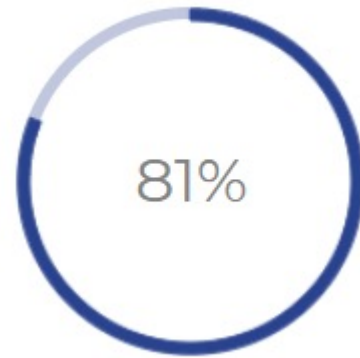

of data breaches
involved weak, default
or stolen passwords

7 Billion

internet-connected
devices worldwide
not including laptops and
mobile devices

3 Million

shortage of skilled
cybersecurity
professionals around the
globe

IN A WORLD OF ZERO TRUST…

Put your mind at ease with knowing that your organisation is protected across:

- data
- applications, and
- end users

![ALTRON KARABINA]

As a trusted Microsoft partner, we are here to help you overcome your Microsoft security challenges by identifying, prioritising and mitigating the risk of cyber attacks.

THE THREE PILLARS OF MICROSOFT SECURITY

ALTRON
KARABINA

Identity and Privacy

Endpoint and Device Management
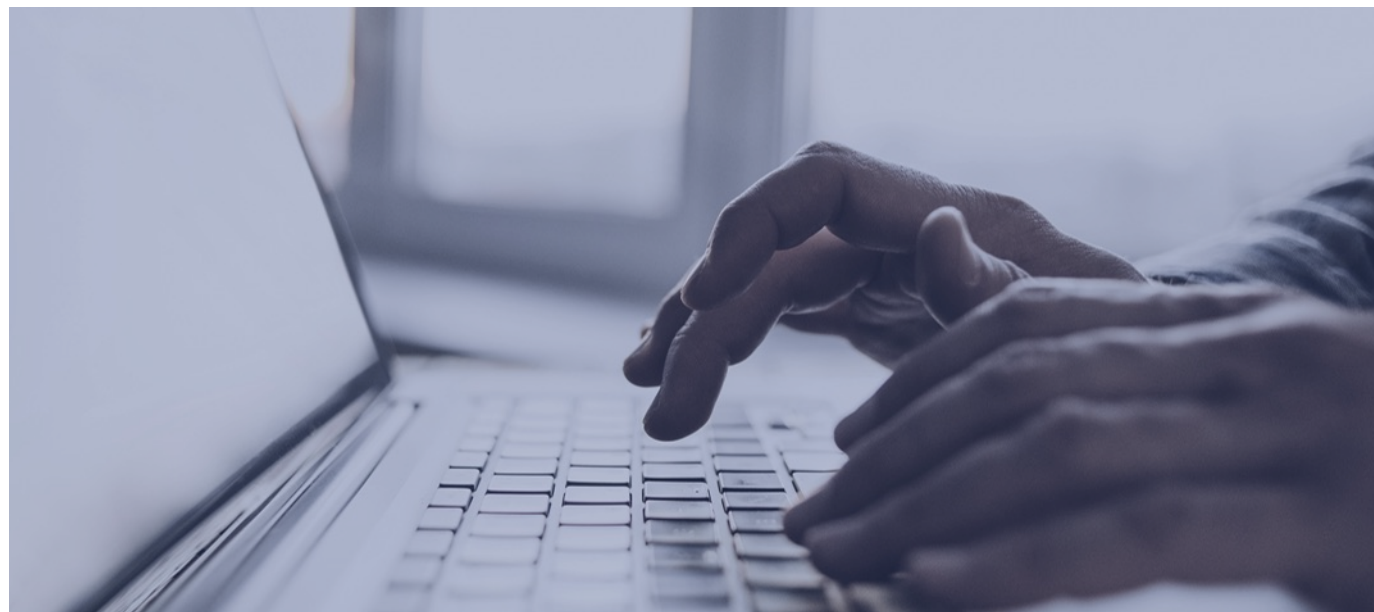

Data Protection and Governance

Identity and Privacy

- Single identity management
- Conditional access and privileged identity management
- Multi-factor authentication and passwordless authentication
- User entity behaviour analytics

Endpoint and Device Management

- Device and app compliance
- Configuration and management consistency
- Intelligent endpoint security
- Advanced analytics and proactive monitoring

Data Protection and Governance

- Automated data classification and labelling
- Compliance across platforms
- Information access tracking and revocation
- Continuous threat analysis and management

OUR CYBER SECURITY CONTROLS ASSESSMENT METHODOLOGY

ALTRON
KARABINA

ASSESS	IDENTIFY	REPORT	REMEDIATE	MANAGE
An assessment of your existing security controls and processes.	Analysing the findings of the assessment to identify potential flaws or gaps.	A report on the current state of your cyber security landscape, areas of immediate concern and priority, and suggested solutions.	A project breakdown and flight plan to help guide your organisation towards remediation.	A managed service to assist your organisation with ongoing security operations and maintenance.

ASSESSMENT SCOPE

CYBERSECURITY CONTROLS ASSESSMENT

Take us up on our offer

A comprehensive assessment running over 5 days

Contact us today via the Commercial Marketplace / App Source or by emailing:

Karabina@Altron.com

For more details.

What you'll get out of this assessment

- A review of critical security controls across business processes, technologies, and recommended security controls

- An easy-to-read report prioritising activities to improve your overall security posture
