

Win With Analytics - Synapse PoC

ABOUT ALTRON KARABINA:

Altron Karabina is a leading Regionally Managed Microsoft Gold Partner with deep skills and focus in Data and AI, who have won the Data Partner of the Year award for 15 Years.

Data into Information

You know that there's data coming into your business at an unprecedented rate – but how can you turn it into information that's guaranteed to be timely, contextual, 100% accurate, secure and easy to use?

WHAT WE OFFER

The Altron Karabina Synapse Analytics Accelerator PoC will deliver the appropriate Azure Modern Data Platform components (Data Lake, Synapse, Data Bricks, Data Factory etc) into your Azure tenant, creation of data structures and an initial data population load, creation of a tabular model and Machine Learning model and the build of one Analytic Power BI dashboard.

The Altron Karabina team will run the PoC with you over a two week period and provide a final feedback, close out and next steps session at the end of two weeks.

Why Azure?

Be future-ready

Continuous innovation from Microsoft supports your development today, and your product visions for tomorrow. With 1000+ new capabilities in the past year, you can build on the latest advancements in AI, blockchain, Kubernetes, containers, and databases to keep you ahead of the curve.

Our enterprise grade analytics solution outperforms the competition, costs less, and is fully compatible with your existing development, BI, and data-science tools.

Operate hybrid seamlessly

On-premises, in the cloud, and at the edge—we'll meet you where you are. Integrate and manage your environments with tools and services designed for hybrid cloud.

Enhance security, simplify access, and set smart policies across your different environments with a single-identity platform trusted by 90% of enterprises globally.

Build on your terms

You have choices. With a commitment to open source and support for all languages and frameworks, build and deploy how you want to. Take advantage of the full-featured, integrated development environments with built-in support Visual Studio and Visual Studio Code, the most popular IDEs trusted by 15M+ developers.

We embrace open source, drive innovation through collaboration, and contribute back to the community.

Trust your cloud

Get security from the ground up, backed by a team of experts, and proactive compliance trusted by enterprises, governments, and startups.

With a \$1b+ investment in security R&D and 3,500 cyber security experts, security is foundational for Azure.

Microsoft Azure is an ever-expanding set of cloud computing services to help your organization meet its business challenges. With Azure, your business or organization has the freedom to build, manage, and deploy applications on a massive, global network using your preferred tools and frameworks.
