

Azure Synapse - Win with Analytics

ABOUT ALTRON KARABINA:

Altron Karabina is a leading Regionally Managed Microsoft Gold Partner with deep skills and focus in Data and AI, who have won the Data Partner of the Year award for 15 Years.

Data into Information

You know that there's data coming into your business at an unprecedented rate – but how can you turn it into information that's guaranteed to be timely, contextual, 100% accurate, secure and easy to use?

WHAT WE OFFER

In the Altron Karabina Free Azure Synapse Workshop we offer two parts.

The first is education on the Microsoft Azure Synapse solution and why every organisation needs a Modern Analytics Platform, followed by a discussion around the data in your business and how that data relates to the strategic goals of your business.

The output includes the identification of One Analytic View that could be built into Synapse into a proof of concept, our follow on offer in this series.

Why Azure?

Be future-ready

Continuous innovation from Microsoft supports your development today, and your product visions for tomorrow. With 1000+ new capabilities in the past year, you can build on the latest advancements in AI, blockchain, Kubernetes, containers, and databases to keep you ahead of the curve.

Our enterprise grade analytics solution outperforms the competition, costs less, and is fully compatible with your existing development, BI, and data-science tools.

Operate hybrid seamlessly

On-premises, in the cloud, and at the edge—we'll meet you where you are. Integrate and manage your environments with tools and services designed for hybrid cloud.

Enhance security, simplify access, and set smart policies across your different environments with a single-identity platform trusted by 90% of enterprises globally.

Build on your terms

You have choices. With a commitment to open source and support for all languages and frameworks, build and deploy how you want to. Take advantage of the full-featured, integrated development environments with built-in support Visual Studio and Visual Studio Code, the most popular IDEs trusted by 15M+ developers.

We embrace open source, drive innovation through collaboration, and contribute back to the community.

Trust your cloud

Get security from the ground up, backed by a team of experts, and proactive compliance trusted by enterprises, governments, and startups.

With a \$1b+ investment in security R&D and 3,500 cyber security experts, security is foundational for Azure.

Microsoft Azure is an ever-expanding set of cloud computing services to help your organization meet its business challenges. With Azure, your business or organization has the freedom to build, manage, and deploy applications on a massive, global network using your preferred tools and frameworks.
