

Connect across the Hybrid Workplace with **Microsoft Teams Rooms**

The modern workplace is fast-paced, flexible and dispersed. Places where work happens has changed, more than ever people and spaces are being connected via technology to enable the Hybrid Workplace. Hybrid work brings together in-person and remote work from anywhere and at any time. Nothing will replace the spontaneous collaboration that occurs in person, but it's not always possible when people work from home or work remotely.

Altron Managed Solutions provide their customers with complete Microsoft Teams Rooms solutions to transform any meeting with HD video, audio, and content sharing in meeting room of all sizes. Bridging the gap between people working remotely and those in the office with a meeting room solution that allows everyone to be seen, heard, and fully participate from anywhere.

Inclusive Meetings

Be seen, heard, and fully participate from anywhere with high quality audio and video, inclusive video layouts, whiteboarding and intelligent content capture

Easy to Use

Make the most of your time together with consistent, Intuitive, friction-free meeting experiences. With calendar integration, one touch and proximity joins.

Flexibility

Teams Rooms can support the needs of any meeting types through a wide array of certified devices. Interoperability with popular meeting providers from within a Teams Room using Direct Guest Join.

Scale to any Room

Teams Rooms systems can be deployed in any room type, meeting the needs of various configurations through multiple screens and a broad portfolio of certified devices. Huddle and meeting rooms, free form spaces, training rooms, auditoriums

Room Scheduling

Microsoft Teams scheduling panels make it easy for meeting attendees to find the right room. Scheduling panels display the meeting rooms calendar for the day, along with meeting details whilst signalling room availability from a distance.

Analytics and Management

Get insights about room usage from the Microsoft Teams Admin Centre. Custom cloud device management platform provides people counting capabilities and the ability to monitor, manage and provision room hardware devices.
