Client's Say

I have been impressed with Katpro technology and their implementation process. They are extremely skilled on Azure platform and have an ability to provide appropriate solution for the technology need. We are very pleased to have Katpro as a technology partner.

- Jagat Jiban Mishra, Chief Product Officer, Mystifly Consulting Pvt Ltd

Working with the KatPro team has been totally satisfying on 3 important counts – transparency, punctuality and quality. While 'quality' and 'punctuality' is an expectation from a solution partner, but 'transparency' is a virtue, which is rarely seen. The KatPro team was always clear about every aspect of their work.

- Anirban, Co-Founder, Loremo Solutions

LCF being a start up, Katpro has been a tremendous support in our journey. Two things on top of our mind is 1) their ability to think through the big picture and 2) their business oriented development

- Param Ram, Chief Executive Officer, Lostclikfound.com

Katpro Technologies' help and their work are highly commendable. Their right kind of attitude and right kind of expertise helped us a lot. We are glad we took their help and will certainly look forward to work with them again

- Abdul Matean, Delivery Head, Microexcel.com

Katpro is a partner to Microsoft and work with me very closely. They are my first preference when it comes to presales of Azure.

- Narayanan S, Microsoft
