# Kellton

AI CoE CONSULTING

7-8 Week Engagement

A comprehensive program to establish an enterprise-grade AI Center of Excellence (CoE) with Azure-native governance, operating model, and capability building.

Kellton

What This Engagement Covers

01 **AI Strategy & Operating Model**

Define vision, mission, scope, KPIs, ownership, and cross-functional responsibilities.

02 **Enterprise AI Readiness & Maturity Benchmarking**

Assess culture, skills, data, cloud, processes, and governance.

03 **AI Governance & Responsible AI**

Create frameworks aligned with Microsoft Responsible AI and TRiSM practices.

04 **Platform & Tools Architecture**

Blueprint covering Azure AI Studio, OpenAI, Cognitive Search, MLOps, Fabric, Synapse, monitoring, and security.

05 **Use Case Pipeline Creation**

12–18 month pipeline prioritizing value, feasibility, and readiness.

06 **Change Management & Talent Strategy**

Roles, skills, upskilling pathways, and CoE processes.

Engagement Flow

1

Discovery & Baseline Readiness

Interviews, assessments, current-state documentation.

2

Strategy & governance design

Vision, operating model, governance structures.

3

Platform Architecture Definition

Azure-native architecture mapped to organizational context.

4

Use Case Pipeline Creation

Workshops + prioritization sessions.

5

Execution Blueprint

MVP sequencing, RACI, budget guidance.

6

Delivery & Wrap-Up

Final playbook, roadmap, governance templates, and CoE handbook.

Deliverables

AI CoE Charter

Mission, KPIs, structure, processes.

Governance Framework

Responsible AI, risk, compliance, model lifecycle controls.

AI Operating Model

Roles, responsibilities, workflows, skill matrices.

Azure Platform Architecture Blueprint

End-to-end reference architecture for AI workloads.

Use-Case Pipeline (12–18 Months)

Prioritized list with investment guidance.

Executive Playbook for AI Scale

Adoption strategy, rollout plan, change model.

Ideal For

- **CIOs / CDOs scaling AI across the enterprise**

- **Organizations with multiple ongoing AI pilots**

- **Enterprises requiring governance + structure for responsible adoption**
