

AI CONSULTING OFFER

5-Working-Day Engagement

A structured 5-day assessment to evaluate readiness, identify opportunities, and define an Azure-aligned AI roadmap.

Assessment Focus Areas

01 Business Alignment

Clarify goals, KPIs, and value drivers where AI accelerates impact.

02 Use Case Identification & Appraisal

Apply Kellton's use-case design framework to define business problems, solution paths, feasibility, and benefits.

03 Data Readiness Assessment

Evaluate data sources, quality, governance, integrations, and platform maturity.

04 AI Governance Review

Understand requirements around privacy, safety, transparency, bias, TRiSM, and responsible AI.

05 Azure Technology Mapping

Fit-for-purpose alignment with Azure AI Studio, OpenAI, Machine Learning, Cognitive Search, Fabric, Synapse, and more.

5-Day Methodology

1

Discovery & Pre-Sales

Understand strategic priorities, architecture, and expectations.

2

Assessment Builder

Tailor evaluation to your business model, sector, and constraints.

3

Preparation

Define scope, stakeholders, and required technical/data access.

4

Workshops

Conduct deep dives on process pain points, data challenges, and AI opportunities.

5

Technical Discovery

Analyze current cloud/data landscape for enablement.

6

Use Case Prioritization

Map use cases by value, cost, feasibility, and readiness.

7

Outputs & Delivery

Present actionable recommendations and a 90-day MVP roadmap.

Deliverables

AI Opportunity Scan Report

- 3-5 prioritized use cases
- Value, feasibility, and effort analysis
- Data, people, and process impact assessment

Business Case Summary

ROI modeling, adoption pathways, and risk considerations.

Azure Technology Alignment Assessment

Recommended architecture, accelerators, and service mapping.

Next-Step Implementation Plan

90-day MVP roadmap including team roles, timelines, and platform design.

Ideal For

- Business unit leaders
- Data leadership teams
- CIO/CTOs
- Transformation owners
