## How to convert EML files using our software?

Recoveryfix Converter for EML allows you to convert your mailbox from EML, EMLX, MSG, and OFT file formats to PST, PDF, DOC, HTML, and other formats. Let us look at the steps to convert EML files to PST using this tool.

**Step 1:** Download and install the software on your system.

Step 2: Launch the software and click on + icon to add EML files.

**Step 3:** Choose the folder that contains EML files and proceed to Select option.

**Step 8:** Once done, you will get a pop-up message **"File conversion is successful."** on your screen. Then, click **OK** to end the process.

## How to convert EML files using the Mac version of the software?

The process of converting EML files in the Mac version of the software is the same as the Windows version. First, download & install the software in your system and follow the instructions carefully.

**Step 1:** Launch the software and click on the **+ icon** to add EML files.

Step 2: Select the folder that contains all the EML files and Open it.
