How to use – Recoveryfix EDB to PST Converter

Launch the tool and follow the given steps to convert EDB files to PST:

Step 1: In the \mbox{Add} \mbox{Source} dialogue box, \mbox{select} $\mbox{Offline}$ \mbox{EDB} File and then click

Next.

Step 2: Click (...) to Browse and select your EDB file. Click Next.

Step 3: Use any of the two options to scan the EDB file (**Standard Scan** or **Deep Scan**). Click **Next**.

Step 4: The EDB files will be added as the source showing all of its mailboxes get displayed. You can preview its content.

Step 5: Click **Save** and select **Create New PST File** from the **Add Destination** dialogue box. Click **Next** to move further.

Step 6: Provide a new PST File location, PST File Name, and Store Name.

You can also apply a password to your PST file. Click **Next** to continue.
