## How to use: Recoveryfix Migration for IMAP

Recoveryfix Migration for IMAP tool is a high-end utility that can easily migrate single/multiple mailboxes from a source IMAP server to another IMAP server destination with its advance and easy-to-use features. Whether to migrate from Gmail, AOL, Yahoo, AT&T, GroupWise, Zoho, etc. this tool has got a universal process to migrate IMAP mailbox to IMAP. Users can carry out the migration process easily with the following steps given below:

**Step 1:** Access the tool and you will get a simple dashboard with Source IMAP and Destination IMAP options.

**Step 2:** Tap on **Add** under Source IMAP and fill in all the details from **Server Name/IP**, **User Email/Login ID**, **password and the port number**. Click on **Add**. In case of any errors, go through the documentation on the right side.
