

Power BI Consumer Training

The Power BI Consumer Training is designed for business users who are focused on using reports rather than creating them. It provides participants with advanced skills to effectively use data analytics and reports without having to create reports. The course covers using pre-built reports, creating simple visualizations, and loading basic data to enable informed decision making for business success.

Create fast value **YOUR BENEFITS**

The hands-on exercises in the training allow participants to apply their knowledge to real-world scenarios to foster a practical understanding of the platform. As a result, a mindset for data-driven decision-making and analysis is fundamentally fostered. Overall, Power BI Consumer Training empowers business users to make informed decisions, maximize their productivity, and contribute to the success of their organizations.

Our complimentary skill sets at KI group and wide range of experience in the digital and data space allows us to thrive and enjoy creating maximum impact on every challenge we face.

With over two decades of expertise in establishing data-driven organizations, we back our approach with a comprehensive end-to-end portfolio. This includes everything from strategy, business, development, operations, to empowering all stakeholders.

KI group
WHY US

How we process **OUR APPROACH**

MODULE 1 Why Power BI?

Exploring benefits of Power BI as an analysis and reporting tool, as well as insights into how Power BI can help make informed decisions, improve data visualization, and increase overall business productivity.

MODULE 2 From the source to the report

Understanding the process of connecting data sources with Power BI, transforming raw data into meaningful insights, and creating interactive reports and visualizations.

MODULE 3 Leveraging the Service

Focus on collaboration capabilities of the Power BI service to share reports with colleagues, set up subscriptions, receive automated updates to use the service in a way that maximizes insight generation.
