## Connecting the organization with a

## Modern Intranet

**Connect users and share information** in a modern and intuitive intranet. Kiefer Consulting can help you in improving a legacy intranet or help you create a new one. The modern workplace demands tools like an intranet and our team of experts have the experience to assist you in deploying one.

A modern intranet allows HR, executive leadership, communications, and management to keep employees informed and engaged.

Quickly find trusted public content including forms, manuals, directories, etc.

Relevant news and organizational announcements in one place.

A modern intranet surfaces documents and collaboration sites that are relevant to the individual user.

Quick links to SharePoint sites that are relevant to you!

Company/ Organizational events listed on the intranet home page
