Unlock Sales Success with CRM As A Service - Your All-in-One Solution Inside Microsoft Teams

About TeamsWork:

We pride ourselves on creating cutting-edge software solutions that boost company productivity while fitting within their budget. Our expertise lies in developing apps that harness the power of the Microsoft Teams platform and its dynamic ecosystem.

What we offer

CRM As A Service provides an intuitive solution for managing customer relationships, tracking sales activities, and organizing leads and opportunities all within Microsoft Teams.

A CRM system is essential for any business, regardless of industry or size. Whether you're managing customer interactions or sales pipelines, CRM As A Service empowers your teams to boost productivity and improve customer engagement.

By seamlessly integrating with Microsoft Teams, CRM As A Service offers a range of powerful features, including Single Sign-On (SSO), real-time notifications, and collaboration tools to enhance communication and efficiency. With this tool, your team can close more deals, track progress, and deliver exceptional results.

What our customers are saying

"I must congratulate you on a well-thought-out product."

– Marius, Tesk Pump

"... at first sight we are positive about implementing this tool."

– Kevin, Atlas copo
