

Simplify cloud management of Adobe Creative Cloud ETLA and Microsoft Office 365 Student Use Benefit programs with Kivuto Cloud.

Kivuto Cloud bridges multiple cloud services to make user management a breeze. We've partnered with the world's leading providers of software and learning tools to streamline end-user access to cloud services.

## Benefits of Kivuto Cloud

### Easy Setup

With turnkey federated identity management support, it's a piece of cake.

### Hands-Off Management

Rest easy knowing user management, license provisioning, and de-provisioning are automated.

### Reporting & Analysis

Monitor the adoption and use of resources with instant, detailed reports.

### End-User Support

We provide end user support so you don't have to.

### Improved User Experience

Get a custom school branded WebStore where users can self-provision into cloud services.

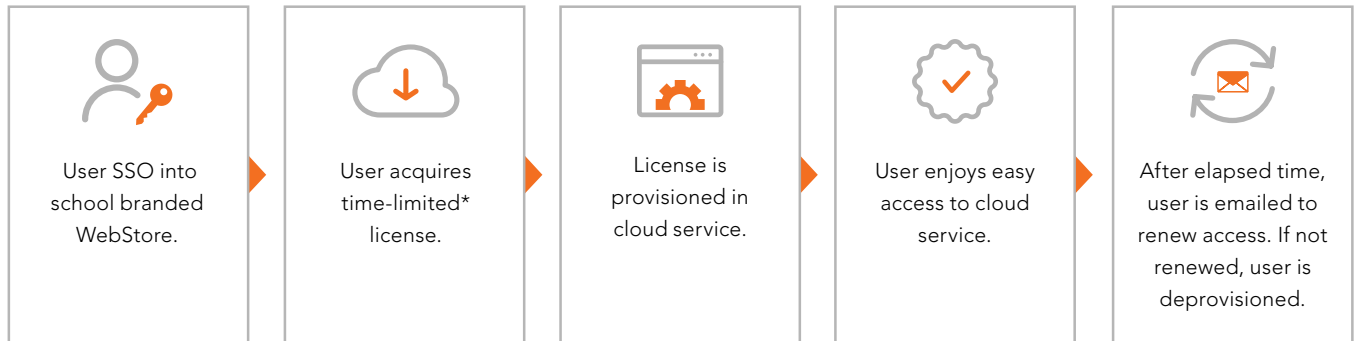

### Optional Cost Recovery

Recoup costs associated with academic licensing through charge-backs.

# How Kivuto Cloud Works

Kivuto Cloud bridges the gap between cloud services and your single sign-on verification method of choice.

\* Amount of time is configurable.

Kivuto Cloud supports Shibboleth, Active Directory Federation Services (ADFS), Office 365 Single Sign-On, and multiple commonsense methods like email domain verification, user import, and proof submission.

## Additional Program Support

Kivuto offers other services to support a variety of software licensing programs from leading publishers.

- VMware Academic Program
- IBM Academic Initiative
- Microsoft Imagine
- Texidium eTextbooks
