Kloudville is disrupting the telecom market by offering a comprehensive software-as-a-Service (SaaS), cloud-based process-centric platform to communication service providers (CSPs).

Kloudville Telecom 360, part of the **Kloudville 360** suite of products, an out-of-the-box, enterprise-grade platform with high performance, availability and security. It enables CSPs to embrace the revolutionary shift from a communications service provider to a digital service provider.

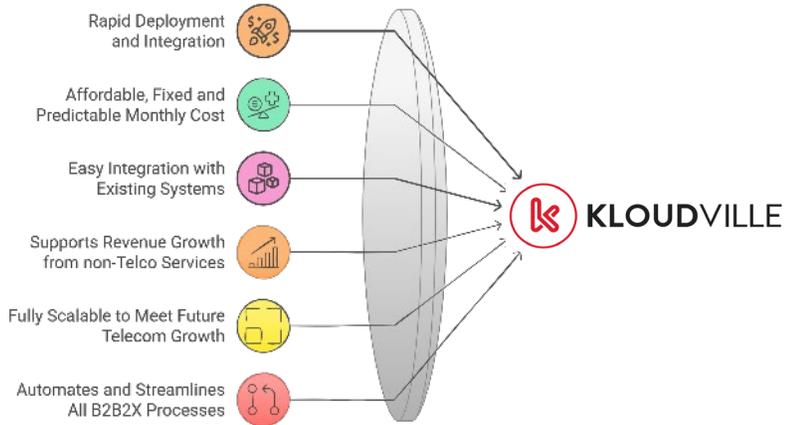

Kloudville Telecom 360 is a cloud-based business support system (BSS) solution that addresses business-to-business (B2B2X) process automation for CSPs.

Kloudville Telecom 360 enables CSPs to:

- Drive growth in B2B, digital services and IoT.
- Run in a private, hybrid and public cloud.
- Get a 360 degree view of customers and sales.

What Makes Kloudville Telecom 360 Unique

Kloudville Telecom 360 provides unique differentiators that enable CSPs to speed up time-to-market and grow revenues at an affordable and predictable cost.
