CloudPC Benefits

- Flexible access to the Windows operating system including Office apps, files, settings, and programs via the Microsoft cloud
- Device-independent use of the virtual desktop (both new and legacy endpoints are supported)
- Enables hybrid work models with integrated remote work
- Easy user management via the Windows 365 portal or Windows Endpoint Manager
- Flexible and unlimited scalability in the Enterprise version
- Secure IT infrastructure thanks to security-optimized Windows processes and protected Microsoft servers
- Cost and effort savings through outsourcing to Windows cloud servers
- Data is secured centrally in the cloud and protected against data loss
- Point-in-time restore enables restoring Cloud PC to previous state
