

Accelerate your sustainable transformation

About digitalizing your sustainability reporting:

This one-hour free consultation will give you an overview of the biggest changes in regulations and how that will affect common processes and reporting.

What we offer

Our expertise in sustainability reporting provides the facilitation you need to successfully review your needs and implement Microsoft's data collection tool across your organization.

Starting with a free one-hour consultation, we will give you an understanding of how you should go about planning for digitalizing your sustainability reporting and why and when it needs to be done. We can provide learnings from other companies and an overview of important steps to include in preparing your business. After the consultation,

- We can provide you with a thorough Gap Analysis on your current sustainability reporting landscape, and what you need to fix to be compliant with the new CSRD and the EU's taxonomy.
- We also assist and quality assure in implementation of tools, and most importantly with processes to ensure that you can utilize your data to understand what actions need to be taken to ensure more sustainable business for your company.
