

Accelerate your CSRD Compliance with Power Apps

CSRD Implementation Made Simple with Knowit & Microsoft Power Apps:

Knowit helps you meet CSRD's mandatory reporting requirements with a clear, data-driven approach—**powered by Microsoft Power Apps**. We integrate regulatory expertise with digital platforms to ensure your reporting is **compliant, automated, and scalable**.

What we offer

We offer hands-on support to simplify and streamline your CSRD process through practical analysis, structured planning, and **Microsoft Power Apps-based implementation** tailored to your business needs.

- Stakeholder & value chain analysis via collaborative apps
- Double materiality assessment aligned with ESRS, enabled through **Power Apps workflows**
- Data gap identification and structured collection using **custom Power Apps** interfaces
- Governance, risk, and ESG alignment through **automated app-based reporting**
- Digital tool integration, including **Power Apps dashboards** for real-time tracking

Why Knowit

With deep expertise in **sustainability reporting and Microsoft Power Platform**, we help you digitize and future-proof your compliance process:

- Assess your CSRD and EU Taxonomy readiness with **interactive Power Apps assessments**
- Understand legal impacts via **centralized legislative dashboards**
- Get actionable recommendations delivered through **tailored Power Apps interfaces**
- Set up long-term reporting solutions using **Power Apps automation and workflows**
