

Understand the Full Impact of your product

Life Cycle Assessment made simple with Knowit:

Knowit helps you transform Life Cycle Assessment (LCA) from a reporting obligation into a data-driven, operational tool—powered by Microsoft Power Apps. We enable you to get started or scale your LCA efforts with digital solutions that integrate environmental analysis into day-to-day decisions.

Power Apps Enhanced LCA

We help businesses quantify, report, and reduce the environmental impact of their products through structured life cycle assessment and tailored expert support—augmented by Microsoft Power Apps.

- **Goal & scope definition** based on key standards
- **Structured data collection** and management via Microsoft Power Apps
- **Scalable LCA modelling** using SimaPro, Excel, or custom Power Apps tools
- Clear **interpretation and communication** of results through interactive Power Apps dashboards
- Support for **third-party verification** and EPDs

Our team ensures LCA becomes a practical, digital-first tool—not just a reporting task—by leveraging Microsoft Power Apps to help you meet regulations, satisfy customer demands, and drive measurable sustainability improvements.

Why Knowit

With deep expertise in sustainability, data systems, and Microsoft solutions, Knowit bridges strategy with execution. We ensure that your **Power Apps deployments** don't just support your LCA needs—they empower you to evolve with regulatory demands and innovation goals.

No matter where you are in your LCA journey, we offer expert guidance and tailored Power Apps solutions to help you move forward—confidently and efficiently.
