

The cloud platform for digital business and efficient integrations.

kdx Azure Business Platform simplifies your everyday life and ensures that you embark on a fast journey towards digital perfection. The platform ensures that your applications and services can exchange information with each other securely.

KDX insights.

Visualized KPIs, reports, and business insights in real-time based on data from all systems and integrations.

Presented in dashboards, powered by Microsoft Power BI.

KDX software.

Commercial best-of-breed software together with ready-made modules and plug-ins from Kodexe.

Everything as Software as a Service, providing you with endless possibilities.

KDX integrations.

Secure integrations to connect the internal with the external and a place to make all cloud services collaborate.

Get started quickly with ready-made connectors for a variety of SaaS and local systems.

KDX foundation.

Automated proactive maintenance, cost control, secure, and with the ability to scale up.

With Microsoft Azure, we ensure seamless management and global presence.
