

# Digital transformation in manufacturing starts with KFactory CORE

We know how things happen in the production flow, why they happen, and what to do to make the factory more productive.

**We DO MORE with less!**

Powered by

 Microsoft Surface Go

You should not tackle inefficiency on your own. We help you bring transparency to your manufacturing process so you can make the best decisions.

- Fast deployment - maximum one month;
- 360° view of the most important process: production;
- Responsible workforce;
- Managers are in control 24/7;
- Smart notifications.
