# Kontex's Microsoft 365 Security Assessment

Analysis of your M365 security posture, evaluating vulnerabilities, identity, and compliance risks with remediation recommendations.

# Kontex's M365 Security Assessment

## Strengthen Your Security Posture

### Enterprise-wide visibility

Assess your organization's Microsoft Cloud security posture across identity, devices, information, apps, and infrastructure based on deployed functionality

### Intelligent guidance

Identify where to improve your security posture using threat-prioritized insights and guidance
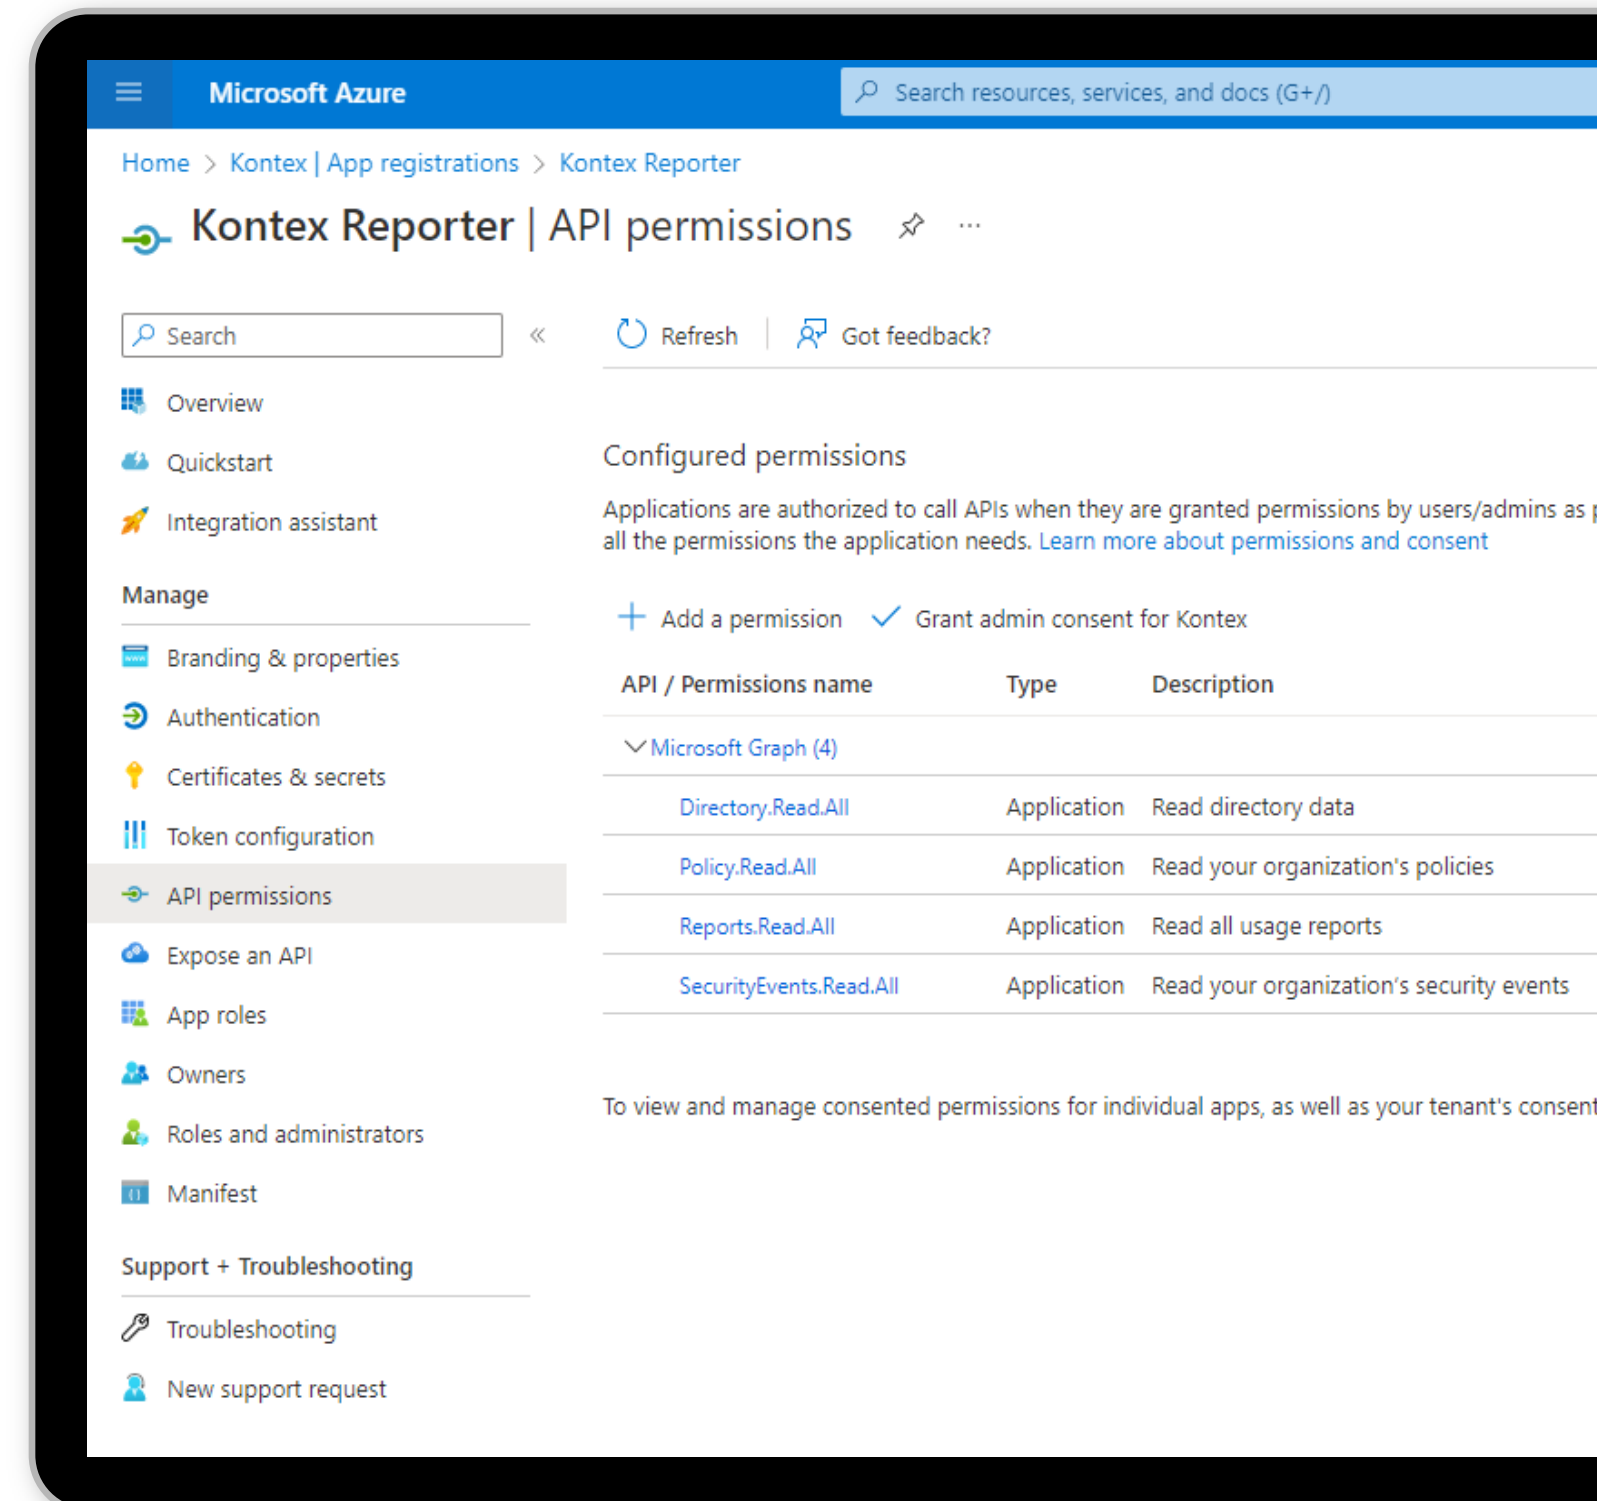

### Comprehensive Reporting

Integrated reporting capabilities to determine impact and procedures to implement

# Kontex's M365 Security Assessment

## What's Involved?

- Kontex approach to the M365 Security Assessment will consist of three phases which are designed to identify gaps in current security controls, identify and assess the key risks and propose effective mitigation measures in the organisational context.

- This will involve rapid capture of relevant information using a variety of sources and result in a consolidated view of Client's current security posture. Some information will be requested in advance to help Kontex SMEs to challenge technical configurations.

- The proposal does not incorporate a full evidence-based assessment however the Kontex SME will ask for evidence in some areas to validate information. A future state roadmap is not included in this assessment but can be supported on request.

○ Joint Input

**PHASE ONE**　　　　　　　　　　　**PHASE TWO**　　**PHASE THREE**

MON　TUE　WED　THU　FRI　　MON　　TUE　　WED　　　THU　　　　FRI

**Gather Information from Client**

Provide detail on X technologies

Kontex provide Technology Questionnaire

**Understand current security controls**

**Kick-Off**　Schedule Interviews　　Interviews

SME Evidence Collection

**Assess current security controls**

**Clarification Meeting**: 2-hour workshop with client SME to step through controls and coverage.

**Report Findings**

**High Level Report:** Current capabilities and maturity assessment against industry benchmark.

**Plan Remediation (If Interested)**

**High Level Presentation**

# Deliverables

## How we present results?

- Slide Deck with Summary and Recommendations
- Document with detailed reference of checks performed
- Detailed AD Sync Configuration Summary
- Detailed AD FS to Azure AD App Migration Analysis

# Kontex & Microsoft

As an end-to-end cloud security partner, we're the proactive specialists that help you push boundaries, who feel like part of your team, that transform your IT for good. With Microsoft, we offer a wide range of best-in-class solutions, through friendly, personalised support and hands-on management. Together, we're the people who power your possible.

## EXPERTS IN MICROSOFT TECHNOLOGIES

Home to a large team of Microsoft consultants, architects, engineers and dedicated support.

## MICROSOFT GOLD PARTNER

We have a proven track record in delivering Microsoft technologies to a range of Enterprise clients, and are Microsoft Gold certified across a range of key technologies.

## MANAGED SERVICES 24x7x365

Kontex is equipped with global offices, to support our managed services on a 24x7x365 basis.
