

KOR SmartForge: Microsoft Fabric AI and Cloud for Manufacturing

End-to-End Visibility, Smarter
Data, Faster Decisions

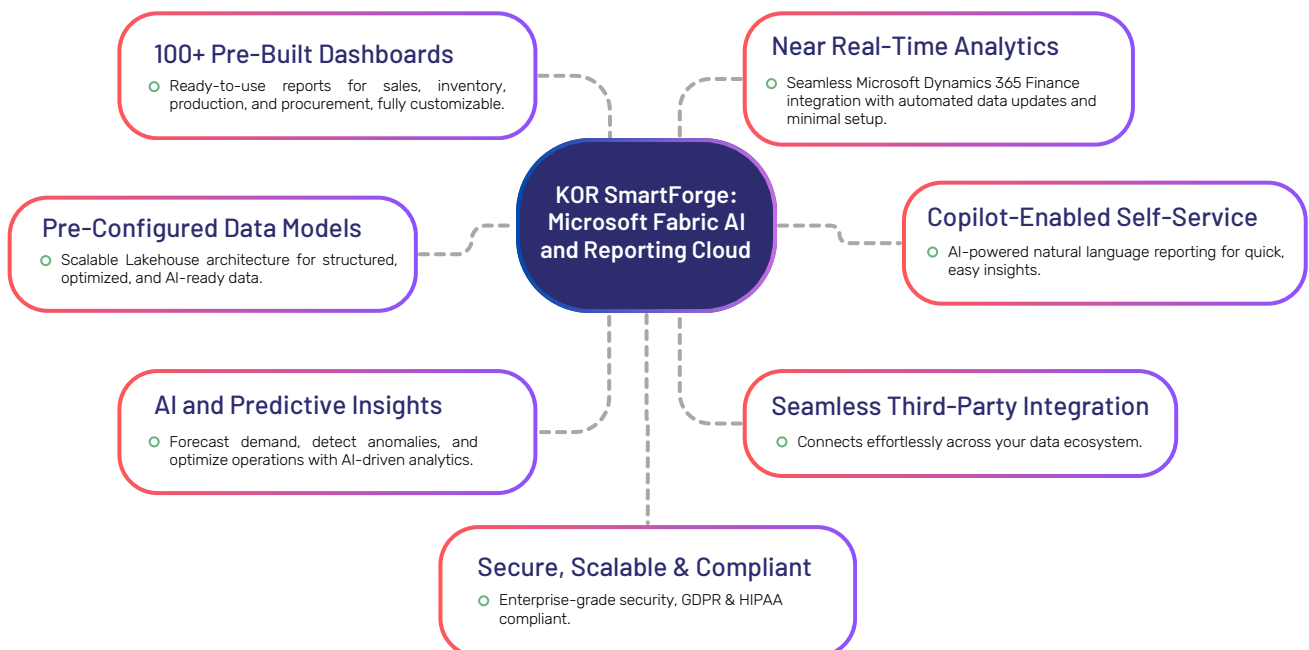

Stay Ahead with AI-Driven Manufacturing Insights

Manufacturers today need real-time, data-driven decisions to stay competitive—but disconnected systems, limited reporting, and untapped AI potential hold them back.

KOR Microsoft Fabric AI and Reporting Cloud changes the game. Built on Microsoft Fabric and AI, this ready-to-deploy solution provides instant visibility, predictive insights, and seamless integration with **Microsoft Dynamics 365 Finance** and other enterprise platforms. From operational reporting to AI-powered automation, our scalable, future-ready platform empowers manufacturers to streamline decisions, boost efficiency, and accelerate growth.

Key Features of Our SmartForge Solution

Tailored Solutions for Every Manufacturing Need

Package	Features	Business Benefits
Operational Reporting	Pre-built dashboards, scheduled updates, single-source integration, role-based access.	Quick deployment, real-time visibility, cost-effective for small teams.
Analytics & Insights	Advanced dashboards, multi-source integration, AI forecasting, moderate customization.	Scalable, predictive insights, tailored for growth.
AI & Comprehensive Data	AI-driven analytics, near real-time updates, Gen AI Co-Pilot, extensive customization.	Enterprise-wide visibility, automation, future-ready architecture.
