Kraft Kennedy

Azure 1-Day Design and Planning Workshop

Your cloud migration is closer than ever.

Our experts help review your current environment and plan for a cloud-based infrastructure.

Your personalized 1-day workshop focuses on an in-depth discussion around available features and configurations that best fit your budget and unique business needs.
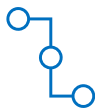

Workshop discussions focus on:

Introduction to Azure Infrastructure-as-a-Service (IaaS)
(features, virtual machine architecture)

Azure Security
(Security Center, IaaS best practices, compliance)

Azure Networking
(VPN, Express Route)

Azure Storage

On-Prem to Azure
(Server migration)

Azure 1-Day Design and Planning Workshop includes:

Education on Azure

Review of your current environment

Identifying unique existing pain points, business needs, desired outcomes

Budgeting discussion

Exploring available features and configurations

Licensing and deployment consulting

Cloud-based infrastructure planning
