

5 benefits of Azure for Healthcare IT

Healthcare organizations are using Azure to address new challenges and re-imagine patient and caregiver experiences.

Managing hybrid IT is becoming more complex and resource intensive. Organizations are spending valuable time, talent, and money on IT maintenance vs. care delivery innovation.

By partnering with Kyndryl, you can optimize your hybrid environment and focus on strategic tasks. Through our deep technical and industry expertise combined with the agility of a managed cloud, future-proof your IT and free your teams to deliver meaningful care.

We'll help you unlock five IT benefits so you can focus on what's most important – your patients and caregivers:

- Enable total cost of ownership savings through a transparent, consumption-based model
- Enhance cybersecurity to stay ahead of threats, protecting confidential data and minimizing service interruptions
- Improve operational resiliency to respond to demand fluctuations and prevent and minimize disruptions
- Accelerate innovation and benefit from industry-wide tech investments in Azure through your modern cloud-based infrastructure
- Improve collaboration and information sharing through secure cloud and industry standards

How we help

With 30+ years of designing, building, and managing mission-critical IT environments, Kyndryl empowers thousands of customers to do their best work.

Through our experience with providers, payers, and life sciences organizations of all sizes, we understand the nuances and metrics vital to success in your complex industry. We're here to help you accelerate transformation and realize the potential of value-based, patient-centric care.

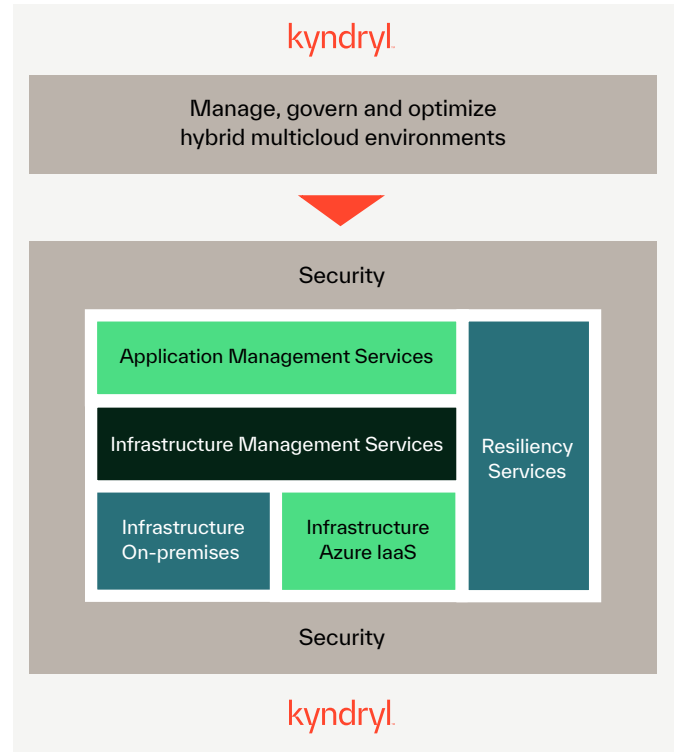

Our technical experts and broad network of partners plan for your unique needs. We meet you where you are in your journey to co-create a hybrid cloud environment built for your success.

- **Advise** on every step of the journey to cloud
- **Design** and execute Azure cloud architecture and solution design
- **Build** innovative applications and experiences
- **Move** and modernize workloads and applications
- **Manage**, govern, and optimize multicloud environments

Our framework

We make managing your hybrid cloud environment seamless and secure

Why Kyndryl?

Kyndryl has deep expertise in designing, running and managing the most modern, efficient and reliable technology infrastructure that the world depends on every day. We are deeply committed to advancing the critical infrastructure that powers human progress. We're building on our foundation of excellence by creating systems in new ways: bringing in the right partners, investing in our business, and working side-by-side with our customers to unlock potential.
