Microsoft® 365 Copilot envisioning workshop

Grounded in business data, Microsoft 365 Copilot is designed to help organizations unleash creativity, unlock productivity, and level up skills. With Microsoft 365 Copilot envisioning workshop, customers will work through various demos on Copilot in action and use relevant user scenarios, challenges, and pain points to identify top priority scenarios for their workforce.

Customer challenges

This workshop is ideal for customers who need to:

→ Confirm technical skills requirements are met at the completion of the workshop.

→ Ensure prerequisites for Microsoft 365 Copilot are in place to begin your journey.

→ Enhance capabilities in Microsoft offerings like Exchange Online, SharePoint Online, OneDrive for Business, Microsoft Teams, and the new Outlook.

→ Address information governance elements: DLP, retention, classification, insider risk, and more with your compliance and legal teams.

Solution highlights

Our Envisioning Workshop helps organizations prepare for Microsoft 365 Copilot's revolutionary AI capabilities. Our Consult team will facilitate this workshop with your team to discover the important steps and prepare you and your environment for Microsoft 365 Copilot.

Customer benefits

During the workshop, the Kyndryl Consult team will help you:

1 Define the scope, identify business stakeholders, and gather information on key business scenarios.

2 Complete an assessment, review your scorecard, and share guidance.

3 Develop a plan to implement recommendations based on prioritized scenarios, including defining next steps and a timeline to develop and implement the solution.
