SAP on Azure: Migrate, Modernize & Manage

Customer challenges

Many organizations lack the in-house skills to run ERP applications on cloud. Kyndryl can help you harness the full power of your SAP ecosystem and enhance agility and efficiency with cloud-enabled workloads on Azure.

Kyndryl has decades of experience managing complex customer workloads, including cloud migrations, digital integrations, and transformations to S/4HANA. Kyndryl brings composable, innovative solutions to the SAP ecosystem with partnerships to integrate best-of-breed services with flexible SLAs, in-region support, and optimal deployment on Azure.

By engaging Kyndryl to move, modernize, and manage your SAP applications on Azure, you can:

→ Eliminate the skills gap and focus on innovation, not application management and maintenance
→ Simplify SAP operations for applications running on Azure while improving security and application resiliency
→ Modernize your SAP and related data estate leveraging Azure analytics, AI, and visualization to provide business insights and improve decision-making
→ Provide streamlined management of SAP and non-SAP applications

Solution highlights

Modernize your business by transforming applications and infrastructure to be more efficient, agile, and responsive. Kyndryl's SAP Services are designed to optimize application and service delivery to lines-of-business, as well as functions like security and compliance reporting.

Free your teams to use the power of data to deepen customer relationships and leave resolving issues to us, including infrastructure provisioning, application installations, database management, and performance monitoring.
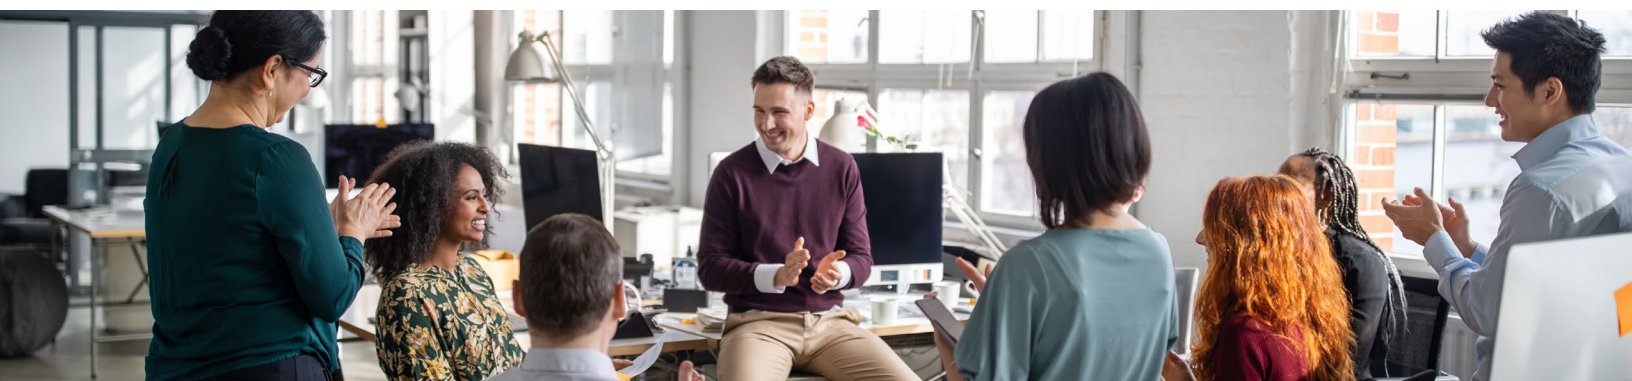

From planning to testing and management, Kyndryl helps increase visibility with a managed services portal that shows SAP applications and the Azure infrastructure from a single pane of glass.

Kyndryl Applications Management Services for SAP on Azure supports SAP HANA, enterprise resource planning (ERP) applications, middleware, and application servers as standard delivery.

Customer benefits

Kyndryl's experts have worked across a broad array of industries to deliver scalable and security-enabled solutions on the Azure platform. Engage Kyndryl to move, modernize, and manage your SAP applications on Azure so you can quickly bridge the skills gap and harness newfound business agility with benefits such as:

1 **Composable ERP** — Kyndryl's composable strategy mixed with flexible SLA options allow customers to build cost-optimized solutions and no longer pay for management hours or regions unused each month.

2 **Extensions** — Kyndryl's managed services are designed to meet customers where they are with the tools and architecture to integrate data, AI, applications, and extensions across the SAP ecosystem.

3 **Partner Integrations** — With 200k+ applications integrated into SAP, Kyndryl supports the digital ecosystem of solutions with intelligent, composable services, including the systems that connect to SAP, the partners needed, and the services that enable automations, integrations, protections, and agility.
