The only workplace digital signage solution to reach deskless workers with confidence

Vibe.fyi is the only workplace digital signage software that uses science-backed techniques to increase the reach and retention of business-critical information, transforming the way communication teams engage their workforce, improve staff retention and influence culture.

Multichannel Messaging

Harness the full potential of your digital signage screens, desktop screensavers, and web browser to amplify messages for your deskbound and non-wired workforce.

Extensive Template Library

Captivate your workforce with dynamic and memorable content – even without the help of a designer. Our extensive template selection and integrated ecosystem make it hassle-free.

Integrated Ecosystem

Avoid doubling up your efforts to automatically integrate with SharePoint, Power BI, Workplace, Google tools and more! Effortlessly share social media, including Facebook, Instagram and Twitter.

www.Vibe.fyi

Let's work together to boost employee engagement, improve staff retention, and influence culture.

How does Vibe.fyi work?

Spaced repetition and snackable learning

Reinforce key messages with the perfect combination of bite-sized content and well-timed repetition. Vibe.fyi supports proven learning and message retention research so you can embed change programs and deliver health and wellbeing messages on a daily basis — without turning into background noise.

Grab and hold attention

Dynamic and visually engaging slides capture attention and engage your workforce. All our templates feature high impact visuals and animation to easily bring branded content to life in minutes, no design experience required.

Communicate effectively, in less time

Produce and deliver highly engaging content and change management programs within minutes.

Vibe.fyi can transform your visual communications!

People need to see a message 17 times to influence behavioural change

People need to see messages 7 times before they take action

About Vibe.fyi

Since 2013, Vibe.fyi has helped hundreds of businesses transform and inspire their workforce through visual communications. Vibe.fyi uses science-backed techniques to increase the reach and retention of business-critical information, transforming the way communication teams engage their workforce, improve staff retention and influence culture.

3 signs your internal communications bottleneck employee engagement

Ignored or forgotten messages

Employees are often inundated with notifications, emails, chats and more, leaving your message unnoticed amongst the noise.

Disconnected and disengaged employees

When your workforce isn't aligned with the organisation's mission, purpose, and goals, they risk becoming disengaged. More workplace accidents, lower productivity and low levels of employee retention.

Deskless employees are left in the dark

The non-wired workforce is often forgotten when it comes to internal communications. When they don't feel like they're part of the wider organisation, this perceived unfairness creates dissatisfaction.

Stop crippling employee engagement with poor internal communications!
