

Exchange on-prem to Exchange Online migration

Migration of mail to M365 cloud

Migration of mail from on-prem resources to the M365 cloud (Exchange Online) includes:

1. Preparing the environment for migration
2. Selecting the appropriate migration method
3. Licensing consultations
4. Setting up Azure AD
5. It ends with a full transition to cloud services.

The cost and terms depend on the number of users and the amount of data to be migrated.
