

## ConnecTEAMS: you will be always one step ahead, but connected with everyone!

ConnecTEAMS allows you to efficiently and totally combine video/voice (internal and external) and events with the team management functions, native to Microsoft Teams, allowing a simple and fast evolution.

### What is ConnecTEAMS?

This Lantech Longwave solution integrates Microsoft Teams with pre-existing voice and video infrastructures; allows a gradual evolution and does not require total changes. Allows integration of the cloud platform with on-premise or cloud infrastructure

### Why customers use ConnecTEAMS?

- One solution for video and voice
- Document sharing and repository always accessible
- Multi-device

### FREEDOM OF CHOICE

- Cloud or on-premise infrastructures
- Several types of devices
- Adaptability to different use-cases

### INTEGRATION

- Integration with existing PBX
- Compatibility with third party infrastructures
- Solution usable on-site or in mobility
