

Why Choose Lumedi?

All Inclusive Pricing

No nickel and diming for each add on feature. Our entire platform is included in your pricing.

Patient Reported Outcomes

Collect real-time health outcomes directly from participants using ePROs.

Longitudinal Study Support

Easy for longitudinal panel, cohort & retrospective studies to collect observational data over multiple timepoints.

Faster Patient Outcomes

Improve patient outcomes by connecting directly with clinicians and study participants.

Secure and Compliant

No more non-compliant Excel. We are fully compliant with all U.S. and Canadian privacy regulations.

Cloud Based

Say goodbye to antiquated data collection systems that lock you down to one site with lots of red tape. Accessible on desktop, tablet and mobile (PC, Mac, Android and iOS)

Custom Integrations

We create APIs for custom integration, medical devices, EMR/EHR, and data migration.

Simple and Powerful

Build advanced clinical research trials and questionnaires in less than a day rather than months.

Created in **Canada**

Created, supported, and hosted in Canada.

Collaboration Made Easy

Made for unlimited users and multi-site trials that can securely share documents with participants & stakeholders.

Electronic Data Collection Management

We make data collection, calculations, storage, and validation quick, easy, secure, and compliant. You can also visualize data through friendly dashboards.
