1

Are you stuck using an antiquated data collection system that has you locked down to one place?

- Lumedi is a cloud-based software that is accessible from anywhere
- Sign-up instantly
- Setup your survey in less than a day
- PC, Mac, Android, iOS
- Mobile, tablet, laptop, desktop

2

Are you still running Excel and adding tab after tab?

- Lumedi makes collecting data online, easy, secure, and fully complaint
- Store and archive
- Real-time calculations
- Instant data validation

3

Are you wanting to affect patient outcomes faster and more effectively?

- Lumedi allows you to ask, share, and collaborate other researchers, front end health care professionals, caregivers, and patients instantly.
- File attachments
- Encrypted communication
- Unlimited users
- Multi-site support

4

Are you limited to asking the same old questions or not sure if you are asking the best questions?

- Lumedi allows you to design your own questionnaires or chose from a continually growing list of curated lists designed from hundreds of fellow researchers.
- Advanced questionnaire builder
- Advanced calculations
- Flexible forms
- Automatic scoring

5

Are you interested in capturing cause and effect relationships in your research studies?

- Lumedi is ideal for longitudinal studies.
- Identify patterns and trends
- Target specific populations
- Repeated time points
- Real time scoring
- Record progress dashboards
