Welcome to Law Qube Technologies, headquartered in Technopark, Trivandrum, Kerala, India. As a distinguished co-sell/ISV partner of Microsoft, we specialize in cutting-edge LegalTech software for the judicial sector. Our flagship cloud-based product, the Qourt Software Framework, operates on Service-Oriented Architecture principles, using microservices for seamless development, deployment, and scaling autonomy.

Qourt

Legaltech Systems For Judicial Ecosystem"

Qourt Software Framework Deployable Use Cases:

Qourt ILMS for Enterprises/ Corporates

- Integrated Litigation Management System (ILMS): For the legal departments of enterprises, corporations, and governments, streamlining case management and grievance redressal with integration to court data.
- Digitization and Automation: Embraces modern technology for the efficient operation of legal departments.

Qourt ILMS for Banks and NBFCs

- Elevate Banking and Financial Institutions: Transform legal operations with our cutting-edge solution for contracts, compliance, NPAs, FIR, matter, and litigation management.
- All-in-One Solution: From integrated contract, compliance, matter, and litigation management to streamlined legal operations, Qourt is your comprehensive solution for efficient legal operations in banks and financial institutions.

Qourt for Judiciary:

- Comprehensive Court Automation System: Revolutionizes court processes with SAAS and cloud-based solutions.
- Proven Success: Successfully implemented in major courts, automating the entire judicial ecosystem.

Core Offerings:

- At the heart of Law Qube's offerings is the Qourt software framework, a high-performance cloud-based court case management system that connects the entire judicial ecosystem.
- Empowers courts, government departments, enterprises, lawyers, and citizens in the digital landscape for highly efficient legal operations.
- Offers separate versions for courts, enterprises, banks, NBFCs, law councils, and law firms.
- Utilizes cloud computing, AI, NLP, and blockchains for cutting-edge solutions.

Features:

- Experience enhanced workflows, automated processes, and timely decision-making through Qourt ILMS's robust features.
- Built-in document management and e-bundling for case submissions.
- Internal and external web portals for lawyers, law firms, legal departments, and customers.
- Modern user interface with multi-lingual support.
- Prioritizes enhanced user experience, swift rollouts, heightened scalability, and fortified security.
- SaaS/PaaS/Cloud/On-Premise/Hybrid Cloud offering
