# TESTIMONIAL ANTOURAGE

||

We're really happy with our collaboration with Leobit.

Leobit successfully delivered and installed the complete media system for a significant new client. They instated a seamless workflow and collaborated synergistically with the internal developers. The team was talented, pleasant, and knowledgeable.

The key to our collaboration is our mutual passion and professionalism. Working with Leobit led to achieving our goals much faster, the efficiency and productivity went up through the roof.

I strongly recommend Leobit to other companies that want to outsource their technology team and I really mean that from the heart and my brain.

**JOHAN JUNKER**  
CEO at Antourage,  
Stockholm, Sweden

# TESTIMONIAL EZY GAMING

”

Leobit has become a trusted development partner. Their proactiveness supplemented the need for an ongoing relationship. They're skilled and dedicated. Expect a personable and respectful team of developers. We appreciate their team's engagement. The team at Leobit cares about their work. When we've had crucial issues or things that needed to go live, sometimes they worked on the weekends. Based on my experience, their strong team cares about company values.

**TIM H.**  
CEO at Arcanebet | EZY Gaming  
Tallinn, Estonia

# WHY LEOBIT

EFFICIENT**

# CYCLING SOLUTION

Leobit developed a comprehensive solution for individual and group cycling in interactive settings. The released product has helped the customer to start the cooperation with a leading cycling hardware manufacturer and increase their market share.

## Location

Norway / USA

## Platforms

Web Stack, Mobile Stack, Microsoft Stack, Embedded

## Technologies

.NET 4.6, WPF, MS SQL Server, Entity Framework, ASP MVC 5, Web API, WPF, jQuery, Bootstrap, SOAP, REST, webhooks, G Suite APIs, iOS, Android

# VIDEO STREAMING APP

Understanding the current situation and tendencies on the sports media market, the customer's company contacted Leobit to develop a full-stack solution for live broadcasting of everything that happens behind the scenes of sports events. This solution allows fans to peek into the life of their favorite sports team only having a smartphone.
