

How Lessi AI Works

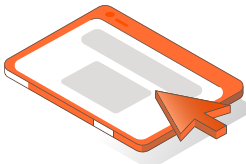

1

Document Inputs Provide Context

Upload IEPs, standards documents, or other instructional materials to provide context.

2

Teachers Customize Profile & Style

Customize your teaching style and lesson defaults by filling out your teacher profile.

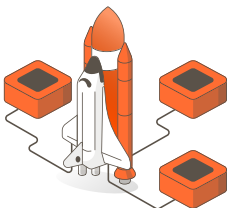

3

Workspace Powers and Organizes

Organize by class, student, or topic and start working with AI to build instructional content.

4

Integrated Planning Builds Cohesion

Connect one type of content to another, such as assessments from lessons or passages.

5

Feedback Shapes and Improves

Provide feedback at the point of use to shape future outcomes and features.
