Online Data Collection and Analysis Solutions

## ABOUT US

Established in 2007, we are one of the leading Canadian providers of cloud-based data collection and analysis software used by professionals in many industries.

Our versatile application allows you to easily create, deploy and manage surveys, questionnaires, forms, voting and other data collection applications. Our intuitive “Do It Yourself” platform requires no software installation and can be accessed from virtually any browser, at any time.

Concerned about your data? The protection and the confidentiality of your data is at the heart of our operations. Our servers and backups are hosted exclusively on Canadian soil, in secure commercial data centres built and managed to meet strict government hosting requirements. As a Canadian company, we abide by Canadian laws regarding the protection of personal information.
