Who We Are?

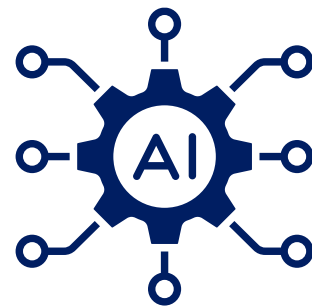

Founded in 2024 in Delaware, Leveragai is a fully remote AI-native training company.

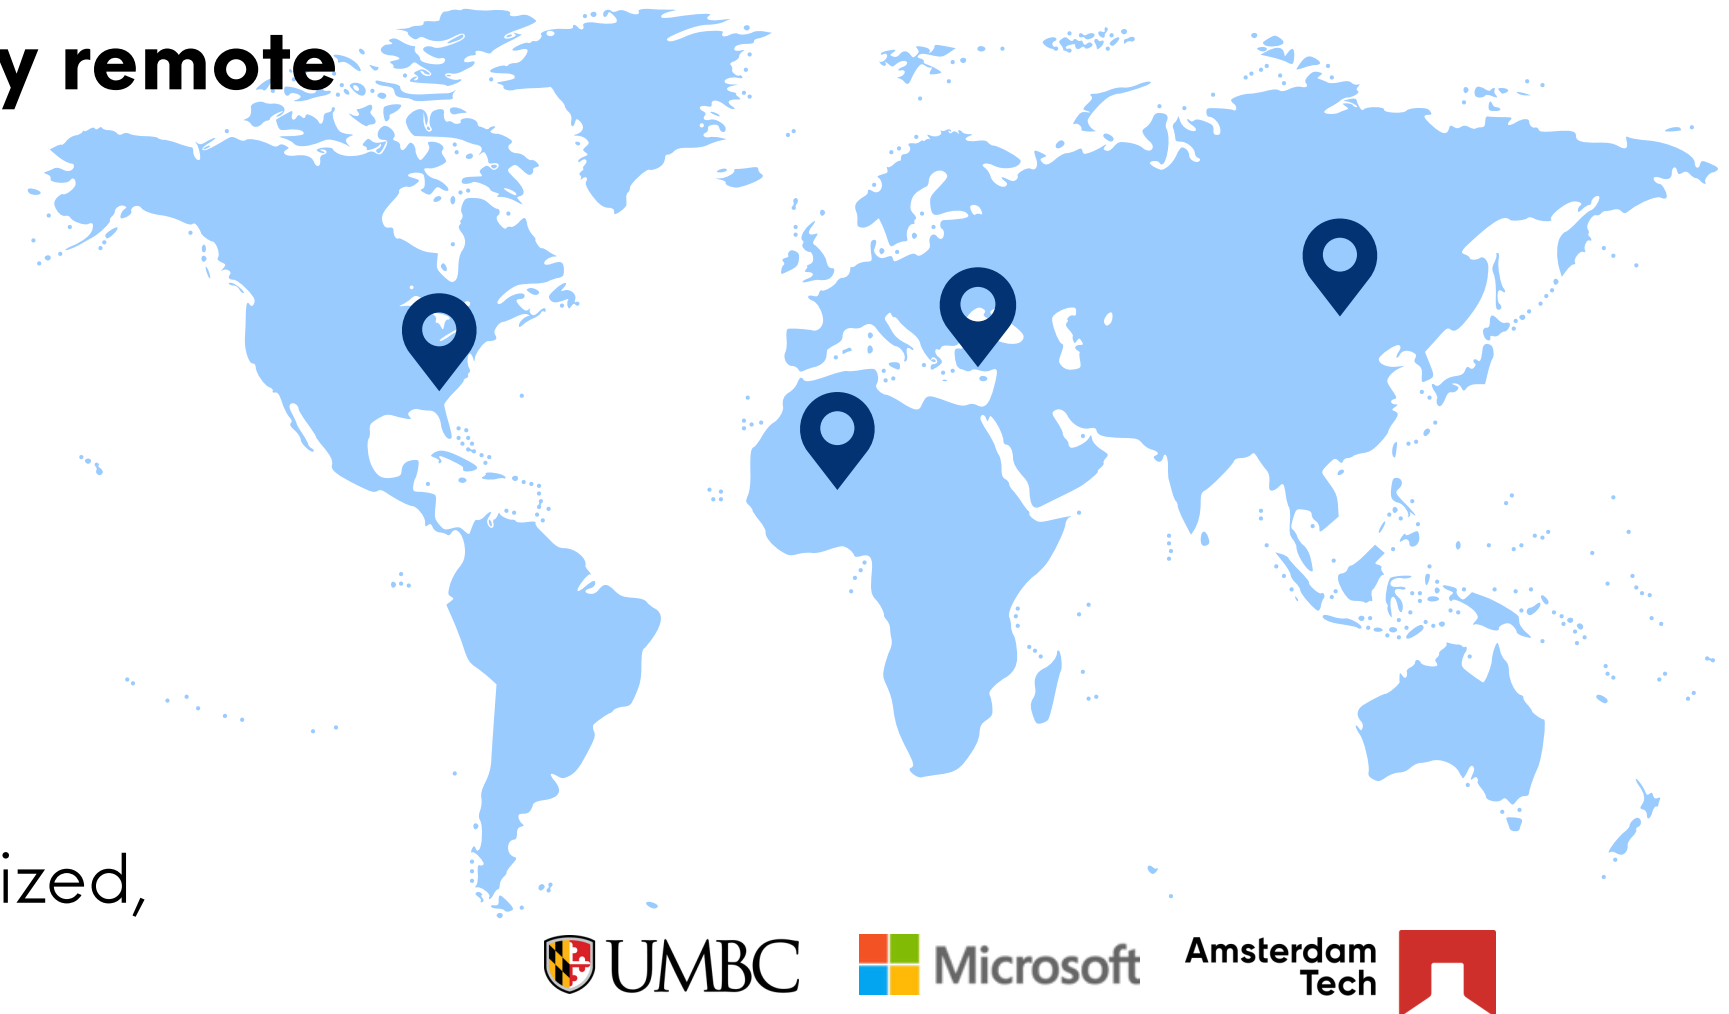

1K+ Learners

4+ Global Partners

100+ AI Powered Courses

We empower organizations and professionals with personalized, generative AI-powered learning at scale.

Generative AI-native course creation

University certifications

Adaptive learning paths & career support

Global tech & university partners

Vision

Make high-impact, personalized AI learning accessible to all

Mission

Deliver end-to-end AI-native training that drives workforce agility and growth.

The Hidden Gaps in Modern Education

These challenges make current learning models unsustainable.

**High
Cost**

**Expensive, less accessible
learning**

**No
Personalization**

**One-size-fits-all curriculum with
no personalization**

**Slow
Adaptation**

**Little or no response to fast-
changing industry needs**

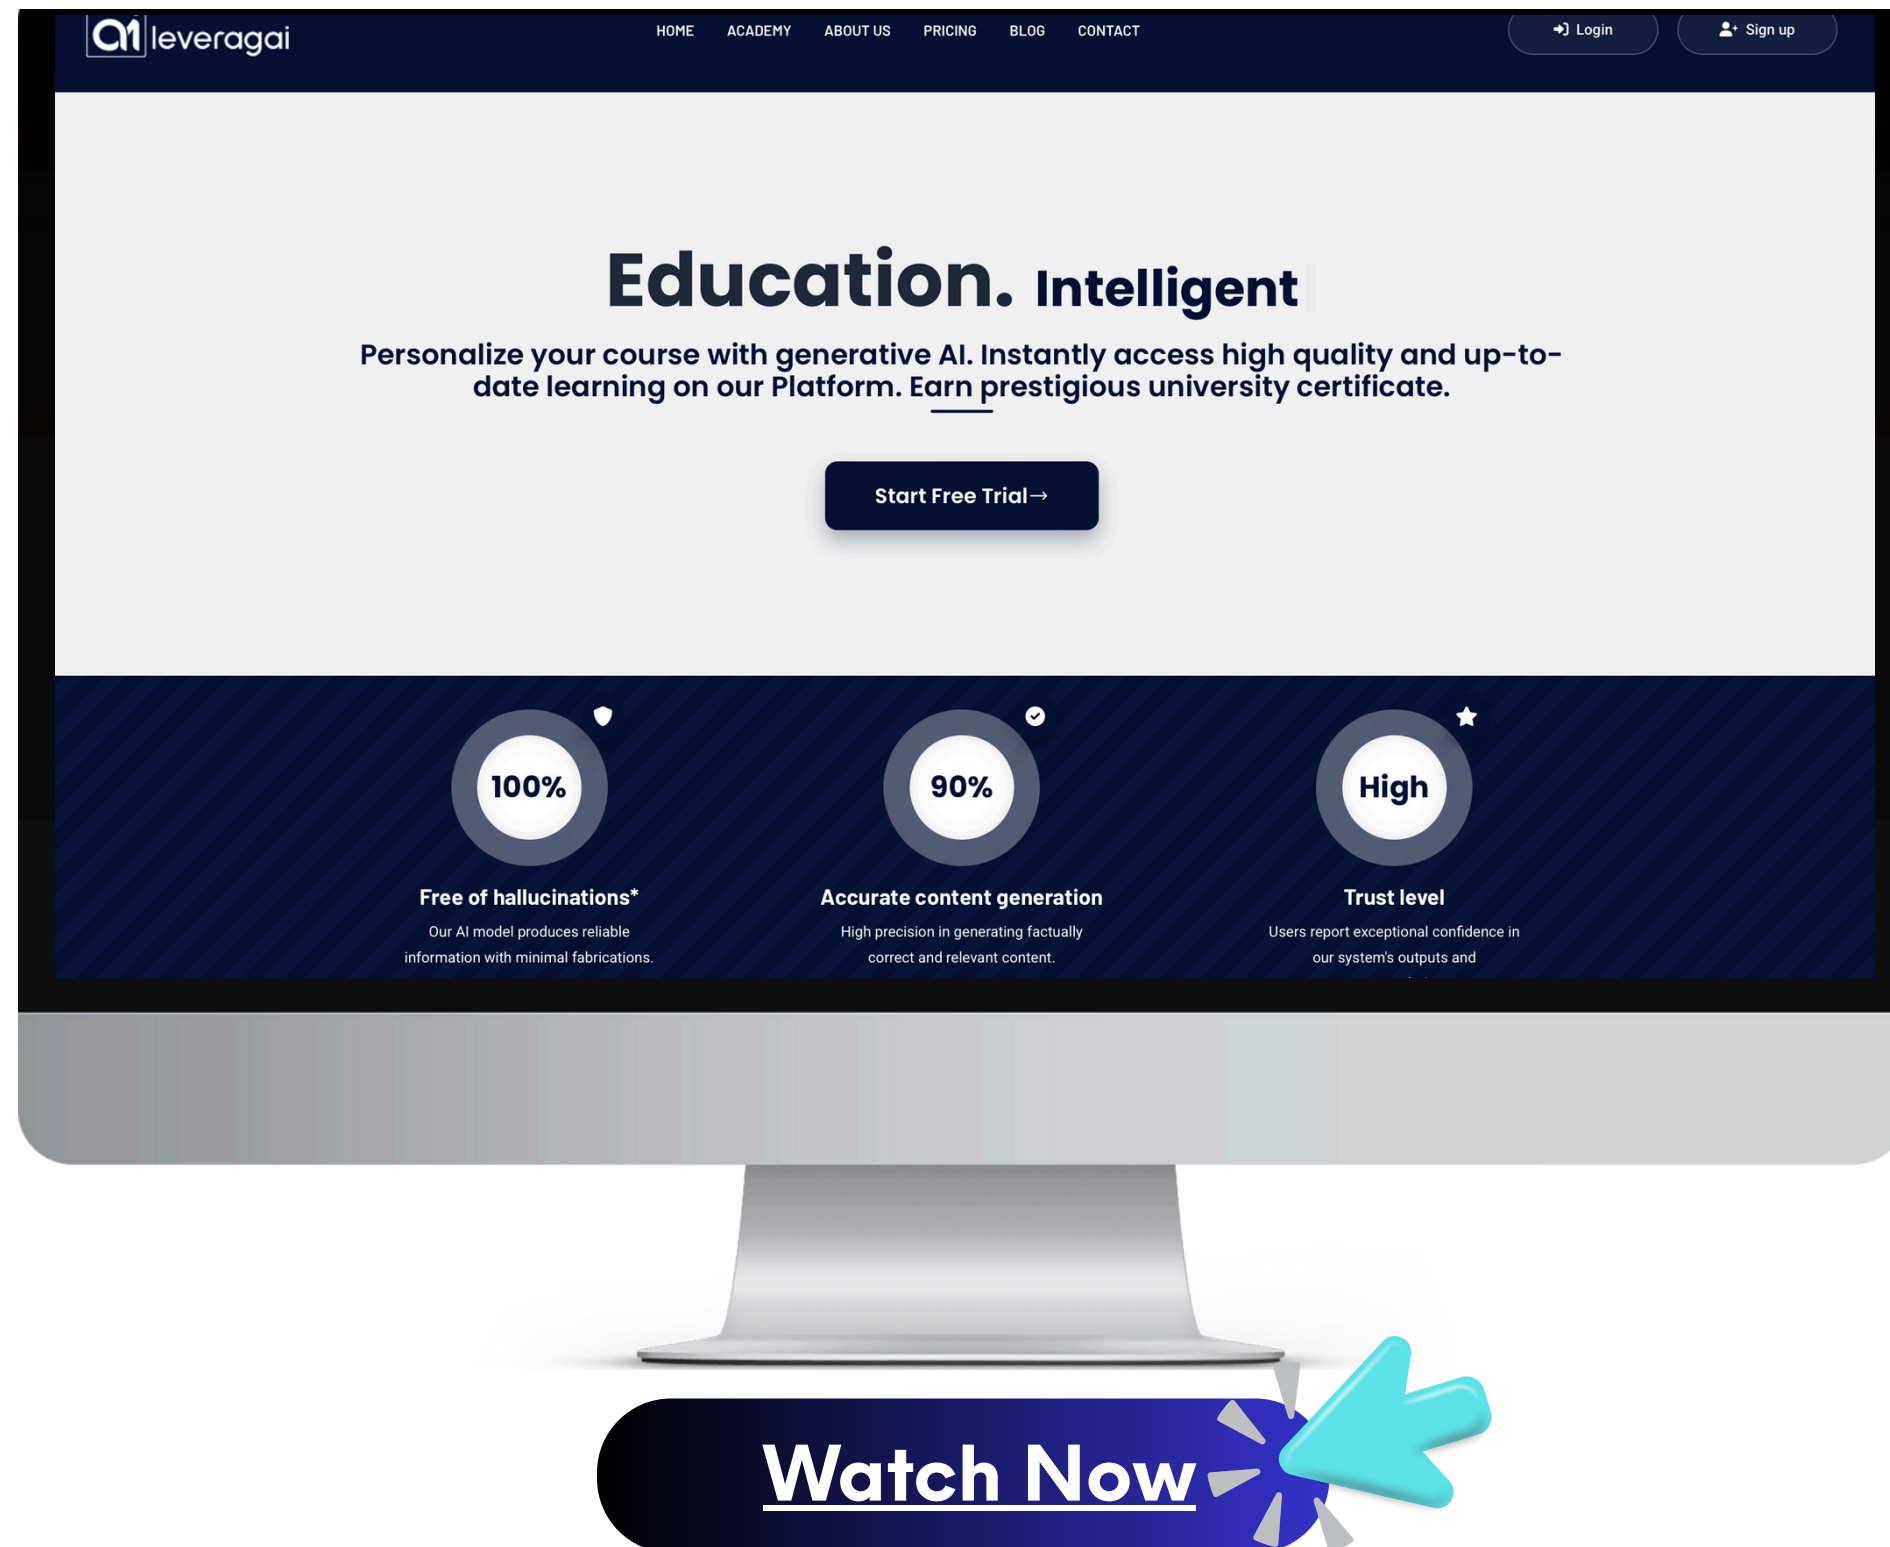

**No
Skill Tracking**

**No continuous or real-time
skill assessment**

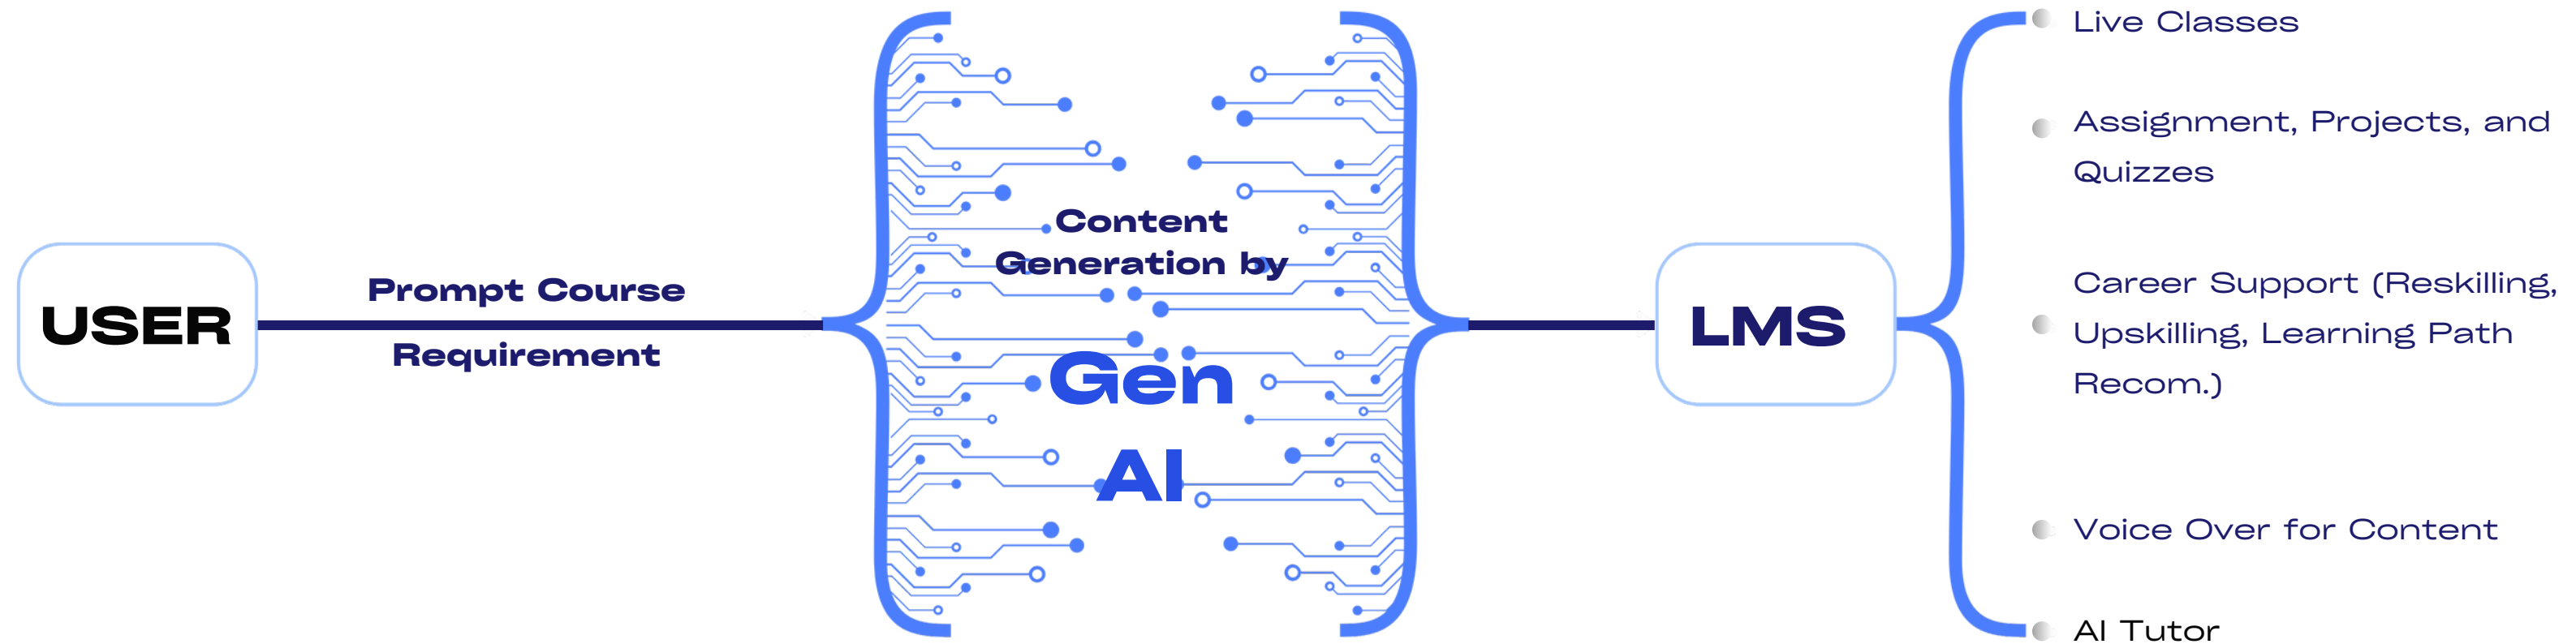

Meet Leveragai

Leveragai: Generative AI-Native Training Platform

How It Works?

Let's see how Leveragai works in practice.

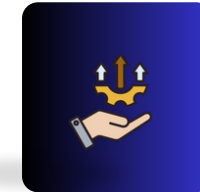

Why Enterprises Choose Leveragai?

Personalized learning. Enterprise scale. AI speed.

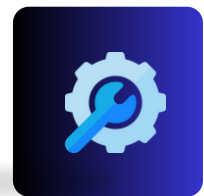

Real-Time Course Generation

AI instantly creates tailored courses in minutes.

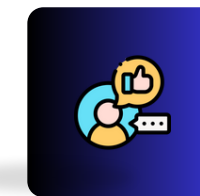

Career-Focused Reskilling and Upskilling

AI recommends skill paths that match workforce and market demands.

Fully Customizable Course Content

Adapt courses to roles, industries, and organizational needs.

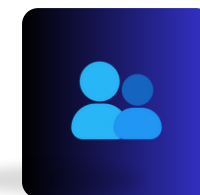

Tailored Learning Path Recommendations

Personalized journeys designed to boost employee growth and agility.

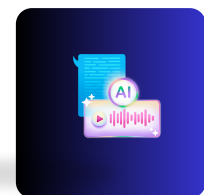

AI Tutor

Get 24/7 instant answers to course questions, saving time and boosting productivity.

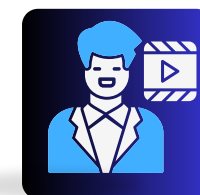

Scalable for Individuals and Teams

Flexible solutions that fit both enterprise-scale and personal learning.

Voice Over

Provide accessible training with natural voice-over across all courses.

Video Animation

Turn static content into animated lessons for better learning.

The Leveragai Advantage
