LEVIA
The product AI Expert.

# Introducing
# The Product Expert

Helping clients to find answers directly on the product page to lift the purchase barriers

Whether the proper answer is...

- in the product description
- inside customer reviews
- inside the FAQ

# A handy self help tool

## Quick to install +++

😎 **Ultra-simplified integration**: <10 min: as easy to integrate as a Google tag.

🎓 **Automatically understands + 90% of the incoming requests**, no training required.

🤖 **Reduce the customer service** contact rate & improve **conversion rate**

## Client knowledge +++

What questions are your customers asking? What lexical fields do they use? Are these questions recurring?

These are all elements that will allow you to **improve customer profiling**, or even **enrich your product pages**.

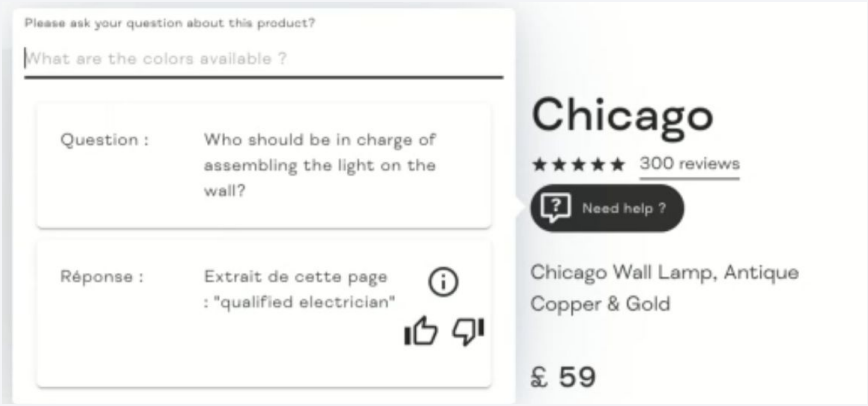
Tracking provided by Google Analytics

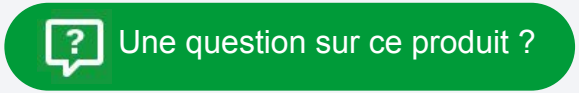
# UI/UX : a personalized widget

Customize the widget to cater to the overall look & feel of your website :

- 💬 **CTA**
- 📏 **Size**
- ✨ **Font**
- 🌈 **Colors**

The change can be done in less than a minute: Like a chameleon, the widget adapts perfectly to your commercial events or the holiday season.





**International Environnement**

Your website sells around the world ? Our AI Assistant is **built to work in international environments**, natively managing conversations in English, French, German and up to **102 languages** with advanced NLP, automated learning and third-party translation technologies.
