

We propel telecoms to innovate fearlessly

Say hello to connection

We propel brands to win in the telecoms market. From onboarding to engagement and upselling, our software underpins vital services, enabling millions of people to communicate daily.

Trusted by brands you trust

"Three have an established and long term relationship with Lifecycle. They have been a significant partner throughout our growth journey offering a range of service and solutions that are used internally,

with our MVNOs and their customers. I have always found Lifecycle to be enthusiastic with a "can do" attitude which is invaluable when working in an agile fashion to deliver rapidly for our MVNO partners"

Duncan Finlay,
Head of Products and Marketing, Three UK

Lifecycle Software provides award winning digital BSS, real-time charging (CCS) and MVNE solutions. We power, support and bring innovation to any operator, launch new MVNOs to the market in record time and arm them with the tools they need to thrive. We shape how some of the most successful telecom players provide their services.

With a rich history of success spanning 3 decades, we propel telecoms to innovate fearlessly, allowing them to create unique extraordinary customer experiences and monetise connectivity with unmatched automation.

Why Lifecycle?

Market leading automation, real time processing

- **1150 transactions per second**, each processed within milliseconds across over 300 workflows
- **99.95%** transactions automated

Anyone can become a neotelco with Nexus® MVNE

- **Launch in less than 3 months** → off the shelf setups, fast go-to market
- **From Start Up to Scale Up** → From 0 to 1M subs in 6 years
- **Cost effective** → Consolidate partners and roll new features faster and cheaper thanks to multitenancy
- **Top Rated** → 4.4 Average TrustPilot rating for our MVNO customers

We know how to make you win

- **30 years** of battle tested expertise. Our flexible and data driven approach solves problems and hacks growth for our customers.
- **Products & services**. We're solid and reliable — we execute, deliver on time, and handle everything so you can focus on your growth.
