Nexus™

MVNE Platform for Agile Telecoms

Cloud native | Multi tenanted

Nexus MVNE Cloud Native Platform allows new MVNOs and partners to plug into your network, launch their business quickly and run operations in an efficient way that primes them for success from the start. Expand your ecosystem and monetise connectivity like never before.

Hear it from our customers:

3 Wholesale

"Our Partnership and the services that Lifecycle provides has been intrinsic in our success and growth over at least the last ten years. Our MVNOs and our business wouldn't be where they are today without Lifecycle Software."

Matt Ward, Head of MVNO,
Three UK
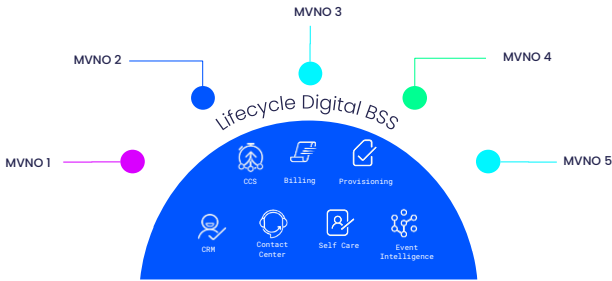

Watch the success story on Youtube

End to end digital brands

Operators are eyeing opportunities to unlock profit with connectivity. To ace the process, telecom wholesale needs an agile MVNE platform capable of welcoming new partners and MVNOs without fuss.

Nexus MVNE guarantees a super fast time to market for new MVNOs and has self-service capabilities so the MVNO staff can manage their offering easily.

We simplify all the process so you can focus on your business growth. Strengthen and expand your ecosystem with a scalable solution that fuels revenue across every level.

Why Nexus?

MVNO 5

CCS   Billing   Provisioning

CRM   Contact Center   Self Care   Event Intelligence

Launch and operate MVNOs and sub brands

Attract new MVNOs who are looking for a one stop shop to be armed to succeed in the competitive market. Support and launch sub brands that speak directly to a community.

Speed up time to market with self service capabilities

Nexus™ crushes the complexity. It provides the necessary network integrations so MVNOs can provision and manage their SIM inventory through activation, porting and in-life changes, create promotions and packages easily.

All the functionality you need

End-to-end solution covering onboarding, billing, real time charging, SIM provisioning, CRM and customer engagement. Its cloud native tech stack is designed for efficiency, security and resilience.

We bridge imagination and connectivity

We support all flavours of MVNOs and have extensive experience empowering brands from Broadband operators, Utility companies, Product retailers and others.

Key tools

White – labelled front end

Ready to use configurable sales portal, self-care care and app. MVNOs can brand to their identity. No IT needed.

Real time charging

Rate and charge in real time for any type of event, give customers full control over their spent and allowance.

Manage SIM & eSIM

Automate enablement, pairing, network activation, suspension, termination, porting and more.

Other modules include CRM, contact centre and business intelligence.
