LIGHTHOUSE

Microsoft SharePoint Premium Security & Compliance Assessment

Interactive assessment to identify opportunities to increase efficiency using Microsoft SharePoint Premium for data protection, information governance (retention and disposition), data classification, eDiscovery, and compliance use cases.

Overview

DATA LABELING & CLASSIFICATION

Identify content and automatically apply sensitivity and retention labels based on SharePoint Premium's document understanding and learning models

DYNAMIC POLICY ENFORCEMENT

Apply relevant data protection and retention policies based on automatically applied labels.

WORKFLOW AUTOMATION

Automate manual processes using workflows built around extracted metadata.

Bridging the gap between legal, compliance, and content AI

The primary goal of the Microsoft SharePoint Premium Security and Compliance Assessment Agenda is to provide cross-functional knowledge around SharePoint Premium and bridge the communication gap between legal, compliance, and technical implementation. The program is structured to enable corporate strategy synergies by helping meet security, compliance, and legal needs with a focus on IT maximizing their investment with Microsoft 365. We tailor each assessment to meet the specific focus area(s) needed for each client based on our initial discovery and identification of the organizations most important goals and use cases.

Advisory assessment deliverables include a go-forward plan providing:

- An in-depth review of security, legal, information governance, and compliance key issues and concerns as well as a review of data sources.
- Hands-on overview of Microsoft SharePoint Premium to ensure stakeholders have a clear understanding of functionality, capabilities, and potential feature gaps.
- Long-term recommendations to manage data protection, information governance, data classification, eDiscovery, and compliance needs.

Why Lighthouse?

For more than 25 years, Lighthouse has been providing global security and compliance advisory solutions combining decades of industry experience and best practices with leading edge technology driven approaches to help organizations confidently achieve scalable, practical success.

Our unique expertise in security, compliance, and legal together with deep expertise in the Microsoft M365 and Purview technologies results in a full breadth of Microsoft security and compliance offerings and a track record of collaboratively supporting Security, Compliance, IT, and Legal business decision makers for measurable results.
