

LIGHTHOUSE

Microsoft SharePoint Premium Proof of Concept

We deliver technology and workflow Proof of Concepts focused on the use of Microsoft SharePoint Premium for information protection, information governance, legal, compliance, and eDiscovery use cases.

Overview

DATA CLASSIFICATION & LABELING

Identify content and automatically apply sensitivity and retention labels based on SharePoint Premium's document understanding and learning models.

DYNAMIC POLICY ENFORCEMENT

Apply relevant data protection and retention policies based on automatically applied labels.

WORKFLOW AUTOMATION

Automate manual processes using workflows built around extracted metadata.

Leveraging Microsoft SharePoint Premium

Leveraging Microsoft SharePoint Premium to increase efficiency and accuracy in your security, legal, information governance/records management and compliance workflows starts by defining your key workflows and building out people and technology processes that support them.

Most Microsoft 365 deployments are primarily technology driven, with Lighthouse you get both technology and workflow focused Proof of Concepts informed by our extensive expertise across privacy, information governance/records management, security, legal, compliance and eDiscovery within the Microsoft 365 platform.

Take advantage of Microsoft 365 enterprise content and collaboration with confidence through the adoption of SharePoint Premium to help automate security, compliance, and information governance/records management processes.
