Want to join the HR cloud revolution?

Leave, Absence and wellbeing challenges?

Description: Dynamics HR & Viva - Leave, Wellbeing and Absence

Proposition:

Our 10-Day tailored demo using Dynamics HR is designed to revolutionize your Leave and Absence processes, providing a swift and efficient transition to Microsoft's cutting-edge Leave and Absence management platform. This service ensures rapid implementation, allowing you to experience the power of Dynamics HR firsthand along with the leading leave app in Teams. Streamlining leave processes, improving employee experiences, and boosting overall workforce wellbeing and HR efficiency are at the heart of our customer value proposition.

Connection to Microsoft Primary and Applicable Products:

Our service is deeply integrated with Microsoft's ecosystem, including Dynamics HR, Azure, Power BI, and Microsoft 365. Leveraging these platforms, we guarantee a seamless and holistic solution.

By combining the capabilities of Dynamics HR with the scalability of Azure, the analytical power of Power BI, and the AI Modern Workforce tools of Microsoft 365, we deliver a comprehensive leave, absence and wellbeing solution.

Pricing Structure:

The final price for our service is variable and depends on specific organizational needs. Variables include the scale of implementation, the number of users, and any additional customization requirements. We ensure transparency in our pricing, providing a detailed breakdown based on these variables during the consultation phase, but our first recommendation is to use this **10-day rapid approach to success and value for a single country and legal entity**

Service Duration Factors:

The duration of our service solution can vary based on factors such as the size of the organization, the complexity of leave HR processes, and the level of customization required, but we will start from our template solution. We encourage you to concentrate on one legal entity and one type of talent stream. Using our guided approach and standard user stories, we target proof of concept success in 10 days. We can subsequently provide a tailored timeframe that aligns with your exact organizational needs for further enhancement or present a custom approach if this clearly not suited best for your goals.

Deliverables and Outcomes:

Customers can expect a comprehensive set of deliverables, including a partially configured Dynamics HR trial system, streamlined leave and absence processes, and customized reporting dashboards using Power BI. The outcome is an optimized HR system that enhances efficiency, reduces manual efforts, and elevates the overall leave and wellbeing experience for all employees.

Topics:

During briefings, we cover key topics such as system capabilities, integration with existing Microsoft solutions, customization options, and data security. We also discuss the impact on employee experience and the potential for future scalability.

Example Daily Agenda (for a 10-Day Tailored Demo):

- **Day 1:** Introduction and welcome to the Microsoft HCM landscape, let's talk about the structure of your organisation
- **Day 2:** What does your existing processes and policies look like today? (for 1 company) Let's map it out.
- **Day 3:** What does your offboarding process look like today? (for 1 company) Let's map it out.
- **Day 4:** System setup preparation, thought on future state
- **Day 5:** What does the future of leave, absence and wellbeing look like? Let's build!
- **Day 6:** What does the future of leave, absence and wellbeing look like? Let's build!
- **Day 7:** Flex Day
- **Day 8:** Test against your initial idea for success
- **Day 9-10:** Support and review

Experience the transformative potential of Dynamics HR with our 10-Day Proof of Concept Leave, Absence and Wellbeing – a swift and effective path to modernized HR management.
